NIPON—SOUTH COAST.

Occasional considerable indraught between Ōo sima and Mikomoto (Rock island).

THE British Admiralty directs attention in No. 364 of 1890 to the occasional existence of a considerable indraught between Ōo sima and Mikomoto (Rock island) on the south coast of Nipon, generally during or after easterly winds, and particularly during the season of the south-west monsoon.

NOTE.—This is a phenomenon invariably experienced wherever there is a considerable bight included between two points, and especially when the normal direction of the currents is parallel to the shore, when they are easily diverted by the action of a lee shore wind; and

warning of this particular instance has already been given in revised supplement, 1889, relating to China Sea Directory, Vol. IV, page 12; but the loss of several vessels off this coast from setting a course from light to light, with very small allowance for drift, appears to point to the necessity of issuing a special notice.

Hooghly Collectorate, the 29th July 1890.

H. G. COOK, Collector.

NOTICE is hereby given that the undermentioned plots of Government lands appertaining to the old jail compound, situated in mousah Keranitoia, pergunnah Midnapore, in the town of Midnapore, will be separately let out on mourusi mokarari leases at a fixed annual rent of Rs. 2 for each plot by public auction at the Midnapore Collector's Office, on Monday, the 22nd September 1890, corresponding with 6th Assin 1297 Amli.

The purchasers will be subject to the following conditions of sale.

CONDITIONS OF SALE.

1. Each plot to be leased to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of each plot will be considered as a mourusi mokararidar of the plot subject to the payment of Rs. 2 as annual rent.
2. The lessee will possess a right of permanent occupation in the land subject to punctual payment of the above rent which will not be liable to enhancement.
3. The lessee will be entitled to take and enjoy the fruits of the existing trees or of such trees as may be planted by him in future within his holding. He will also have a right to cut or sell every tree planted and reared by himself or by his predecessors on his holding. The rights declared by the lease to vest in him will devolve on his heirs at his death.
4. The lessee, in case he builds, will be required to submit a plan of the house showing the width of the foundation wall and the level of the lowest floor of the house by reference to the level of the nearest public road. He will also give a general description of the building he intends to erect and of the provisions he intends to make in respect of drainage and latrine accommodation.
5. Until and unless the plan and level submitted by the lessee be approved by the Collector, the lessee will not be allowed to build, and, if he builds, the Collector will have power to demolish his buildings without being liable to any Court for damage or compensation.
6. If the lessee transfer his right in any way or underlet the holding, the transfer shall be made subject to all the conditions of the kabulyat to be executed by him.
7. All future improvements, additions and alterations in the holding will be also subject to the approval of the Collector of the district.
8. The buildings constructed will not be used for any other purpose than as dwelling-house.
9. The lessee will not excavate any tank or burn any bricks within his holding, and will keep the land free from jungle. If he violate this condition, his lease will be liable to be cancelled, unless he takes due steps to repair the breach of the conditions as may be ordered by the Collector.
10. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
11. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the holding to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
12. A plan of the different plots is in the Collector's Office and can be inspected by the intending purchasers.

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GAO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

NOTIFICATION.

The 6th September, 1890.—The following correspondence regarding new regulations respecting the Gilchrist Scholarships for the benefit of Natives of India, is published for general information.

P. NOLAN,

Secretary to the Govt. of Bengal.

No. ^{5Edn.}₂₈₄, dated Simla, the 28th August 1890.

From—J. P. HEWITT, Esq., Under-Secretary to the Government of India, Home Department,

To—The Secretary to the Government of Bengal, General Department.

In continuation of Home Department Circular No. ¹⁰₅₄₀₋₄₅, dated 23rd November 1889,

No. 86 (Public-Educational), dated 17th July 1890.

I am directed to forward the accompanying copy of a despatch from Her Majesty's Secretary of State, and of its enclosures, and to request that the new regulations respecting the Gilchrist Scholarships for the benefit of Natives of India may be communicated to the Educational authorities in Bengal.

No. 86, (Public-Educational), dated London, the 17th July 1890.

From—Her Majesty's Secretary of State for India,

To—His Excellency the Most Hon'ble the Governor-General of India in Council.

WITH reference to your Education Despatch No. 8, dated the 26th of November last, I transmit for the information of your Excellency in Council a copy of a letter* from the Gilchrist Educational Trust forwarding copies of the Regulations respecting the new Scholarships for the benefit of Natives of India.

2. I request that your Government will cause copies of these new Rules to be distributed to the several Indian Universities concerned.

GILCHRIST EDUCATIONAL TRUST.

No. 1167 J. & P., 4 The Sanctuary, Westminster Abbey S. W., dated 7th July 1890.

From—R. D. ROBERTS, Esq., Secretary,

To—The Under-Secretary of State for India.

I AM directed by the Trustees to inform you that they have now settled the new scheme of Indian Scholarships, and have drawn up the Regulations of which I enclose copies.

They have embodied in these Regulations the suggestions made in the Despatch from the Government of India transmitted to them from the India Office on December 21st, 1889 (J. & P.-2208).

The draft Regulations, of which these are the final form, were submitted to the various Indian Universities, as well as the Government of India, and have met with their approval.

The Trustees venture to hope that the new Scholarships thus established will prove still more useful to Natives of India than the old Scholarships.

As in former cases, the Trustees hope that you will be so good as to cause these new Regulations to be distributed to the several Indian Universities concerned.

GILCHRIST EDUCATIONAL TRUST.

TRUSTEES.

RICHARD LEIGH HOLLAND, Esq. (*Chairman*).

[All communications to be addressed to

The Secretary of the Gilchrist Educational Trust,

4 The Sanctuary, Westminster, London, S.W.]

Rules and conditions relating to Scholarships instituted by the Gilchrist Educational Trust for the benefit of Natives of India.

[These Scholarships are open to Women upon exactly the same conditions as to Men.]

1. Three Scholarships of the value of £200 per annum will be awarded, one every year, to candidates who are natives of India (within the meaning of section 6* of the Statute 33 Vict., cap. 3), or of the "Native States" of India. They shall each be tenable for three years at any University or any Science or Technical College in Europe (approved by the Trustees in each case), on condition that the scholar shall undertake to go through the course and pass the examinations necessary for obtaining a definite Science degree or diploma as may be prescribed by the Trustees. The nomination to these scholarships will rest with the Universities of Calcutta, Madras, and Bombay in rotation, subject to the conditions hereinafter specified.

2. A scholarship will be given every third year on like conditions, the nomination of suitable candidates for which will rest with the Universities of the Punjab and Allahabad jointly. Each of these Universities may submit to the Government of India the name of one candidate, and the actual nomination to the scholarship shall be made from the names submitted by the Government of India.

3. The scholarships will be given (during the next few years) in the following rotation†:—

1891	...	Calcutta, Punjab and Allahabad.
1892	...	Bombay.
1893	...	Madras.
1894	...	Calcutta, Punjab and Allahabad.
1895	...	Bombay.
1896	...	Madras.

* The provision in the section is as follows:—"That for the purpose of this Act the words 'natives of India' shall include any person born and domiciled within the dominions of Her Majesty in India, of parents habitually resident in India, and not established there for temporary purposes only; and that it shall be lawful for the Governor-General in Council to define and limit from time to time the qualification of Natives of India thus expressed."

† This rotation is arranged to avoid, as far as possible, giving to any University a Gilchrist Scholarship in the same year as a Government Scholarship; but it may possibly happen occasionally that a scholarship may fall to be given by a University in the same year as a Government Scholarship.

4. (a) Each University shall make its nomination from among the more distinguished of its graduates of the three preceding years, who shall not be more than 22 years of age on the 1st of July in the year in which the scholarship is awarded. Of these, that graduate shall be selected who has done especially well in Science or Mathematics and is desirous of pursuing—and is most likely to benefit by—a further course of scientific study in Europe. Provided that no person holding a Government of India Scholarship, tenable in England, shall be eligible, or shall continue to hold a Gilchrist Scholarship, after he has accepted a Government of India Scholarship.

(b) Probably the results of the examinations of the three preceding years will be a sufficient guide to the University in making the selection; but it will be open to each University to consider whether a special examination shall be held, although the Trustees hope that this will be avoided, if possible. If a special examination is held, all the necessary arrangements for it must be made by the University holding it; but the regulations which any University may propose to lay down in regard to such examinations must receive the previous approval of the Gilchrist Trustees. No examination should be held later than the month of June in any year, it being essential that all nominations should be made so as to afford the scholar nominated a sufficient interval to complete his arrangements and to reach England in time for the Autumn term at the Universities and Colleges. The candidates for the special examinations, when such examinations are held, must be graduates of proved ability, selected by the Vice-Chancellor on the report of the Syndicate or governing body, who will in their turn be guided by the opinion of the Professors and Examiners.

5. Every candidate for a scholarship will be required to satisfy the Vice-Chancellor of the University as to his good conduct, his knowledge of the English language, his physical capacity to undergo the course of life and study which he will have to follow in Europe: he must also satisfy him of his intention, if successful, to proceed to England forthwith, and to reside in Europe for a period of three years, unless compelled to return sooner by ill-health or some other cause which may seem sufficient to the Gilchrist Trustees.

6. Each scholar will be provided by the Government of India with a free passage to England. The Gilchrist Trust will provide a return passage (at the end of the three years) at a cost not exceeding £50, provided that the scholar shall have fulfilled the conditions of his scholarship; but the scholar will not be entitled to claim any difference between the actual cost of passage and the amount above named.

7. Each scholar must enter into a written engagement to submit to such regulations as may from time to time be issued by the Gilchrist Trustees for the guidance of the scholars.

8. The tenure of the scholarships will be strictly dependent on good conduct in Europe, and on satisfactory progress being made in study. The Gilchrist Trustees reserve to themselves the right of finally deciding whether a scholar has or has not committed a breach of the rules and conditions on which his scholarship is held, as also all questions which may from time to time arise, whether expressly provided for in the rules and regulations or not. They further reserve to themselves the power of altering the conditions of the scholarships, or of altogether withdrawing them, if they shall think fit. Due notice of any alterations will be given, and changes will not be made in such a manner as to affect the interests of students already appointed to scholarships.

On the nomination of a scholar being completed, the University or the Government of India (as the case may be) nominating him should communicate his name and address to the Secretary of the Gilchrist Trust, 4 The Sanctuary, Westminster, London. If the nomination is made after examination, the number and names, &c. of the candidates from whom the selection was made should also be communicated.

N.B.—One of the Gilchrist Trustees* will personally see each Gilchrist scholar as soon as possible after he has reported his arrival at the office of the Trustees, and will confer with him upon the course he may propose to pursue and the University or College to be selected.

Regulations for Gilchrist Indian Scholars in England.

(1) Every scholar shall, on reaching England, at once present himself at the office of the Gilchrist Trust and report his arrival. He shall be provided with an official certificate of identity signed by the Registrar of the University by which he is nominated, or by a Secretary or Under-Secretary to Government.

(2) Every scholar shall, on arriving in England, submit for the approval of the Gilchrist Trustees a statement showing the general course of study he proposes to follow; and specifying the University or College to which he proposes to proceed. After consideration of such statement, the Trustees will decide at what University, or Science or Technical college in Europe the scholarship shall be tenable, and will prescribe the course to be gone through and the degree or diploma to be obtained. Every scholar shall at once take steps to enter himself at the University or College which the Trustees shall have approved. The course finally prescribed by the Trustees shall not be changed without their sanction.

(3) Every scholar shall, at the end of each University or College term, send to the Secretary of the Gilchrist Trust a certificate from the proper University or College authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

* Professor James Stuart, M.P., has undertaken this function for the present.

(4) Every scholar shall at all times obey such instructions as he may receive from the Gilchrist Trustees or their Secretary.

(5) The scholarship allowance, at the rate of £200 a year for three years, will be paid quarterly, in advance, by the Gilchrist Trust, commencing from the date when the scholar reports his arrival in England.

(6) Every scholar will forfeit his scholarship, who, not being disabled by illness or prevented by any other cause which the Gilchrist Trustees may consider sufficient, fails to complete a residence of three years in Europe, or who is at any time guilty of misconduct or disregard of the orders of the Gilchrist Trustees. If a scholarship be forfeited, the scholar will lose his claim to a free return passage to India.

NOTIFICATION.

The 4th September, 1890.—The following revised rule for the award of special junior scholarships for females is published for general information :—

Three junior scholarships, one of each grade, shall be open annually for competition at the Entrance Examination to female candidates educated in any school in Bengal. They shall be awarded on conditions similar to those prescribed for general scholarships, and shall be tenable in any collegiate institution approved by the Director of Public Instruction, or in the certificate class of the Medical College.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. C. STEVENS,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

The 4th September 1890.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the Karanjaria outpost, in the village of Mallikadaipur, taluk Padmalochanpur, pergunnah Ankura, zillah Balasore, it is hereby declared that for the above purpose a piece of land measuring 3 roods, 35 poles, 13 yards, 8 feet, and $\frac{1}{4}$ inches of standard measurement, bounded on the North by a garden in mouzah Mallikadaipur; on the South by a path in mouzah Mallikadaipur; on the East by a garden in mouzah Mallikadaipur; and on the West by mouzah Naikandih; is required within the aforesaid village of Mallikadaipur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. C. STEVENS,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 9th September 1890.—In part supersession of the notification, dated the 2nd June 1869, published in the *Calcutta Gazette* of the 8th September 1869, the Lieutenant-Governor sanctions, with effect from the 1st October 1890, the undermentioned changes in the districts of Bhagalpur and Purneah as regards their civil, criminal and revenue jurisdictions:—

1st.—The villages mentioned in the list A (annexed), which form parts of pergunnahs Dhuphur and Nathpur transferred from the district of Purneah to that of Bhagalpur by the above notification, are re-transferred to the district of Purneah.

2nd.—The villages mentioned in the list B (annexed), are transferred from the district of Bhagalpur to that of Purneah.

3rd.—The villages mentioned in the list C (annexed), are transferred from the district of Purneah to that of Bhagalpur.

In consequence of the above alterations the following is declared to be the revised eastern boundary of the district of Bhagalpur:—

Commencing from the village of Bandailiputti on the extreme north the boundary runs southward along the boundaries of the following villages, viz.:—Baudailiputti, Lahipras, Bowraha, Bandailiputti for the second time, Kamat Arazi, Arazi Jagir, Jirwa, Permanandpur, Ghouspurputti, Shankarpur, Koochgawan, Biria Choudry, Sahajpur, Lalpurgote, Kushar, Parsa Melik, Dhansingputti, Parsa, Parsa Chakla, Parsa for the second time, Kushar for the second time, Nathbari, Barkmotar-Arazi, Tulsiputti, Thuthi, Bhimpur, Jivuchpur, Belagunge, Madhopur, Pertabnagar, Balua, Indarpur, Ramnagar, Lalpur, Mohanpur, Katahara, Sohata, Putti Neamuth, Gualpara, Katansar, Gualpara for the second time, Bhowanipur, Gualpara for the third time, Charney, Parsa-Gadhi, Parsa-Gadhi Melik (Thakbust No. 19), Parsa-Gadhi for the second time, Gobindpur, Parsa-Gadhi Melik (Thakbust No. 24), Gobindpur for the second time, Parsa-Gadhi for the third time, Naudna-Kaf, Hanumannagar-Istamar, Jeunpur-Chakla, Kutaharajaie, Hiraputti, Kutaharajaie for the second time, Sehuria-Bala, Luchwipur-Bhagwati, Nolegunge-Manpur, Mangarwara, Mangarwara Melik, Israien Kalan, Zorawargunge and Beysadh till it touches the eastern boundary of pergunnah Nasingpur-Kura; thence it runs southward along the boundary of pergunnah Nasingpur-Kura to the village of Singean; thence the boundary follows that of the following villages, viz.:—Singean, Ramiputti, Bishunpur Kalhantia, Sheikpura, and Ramnagar-Beyjnathpur till it again meets the boundary of pergunnah Nasingpur-Kura; thence it runs along the boundaries of pergunnahs Nasingpur-Kura and Chye southward to the village of Protabnagar; thence along the eastern boundary of village Protabnagar till it again meets the boundary of pergunnah Chye; thence along the boundary of pergunnah Chye to the Ganges river; thence the boundary remains unaltered.

NOTE.—In the above description the villages named are included within the boundary of the Bhagalpur district.

NOTE.—The above eastern boundary of the district of Bhagalpur is also the western boundary of the district of Purneah.

IRRIGATION.

The 4th August 1890.

No. 294.—Notification.—In exercise of the powers conferred on him by section 99 of Act III (B. C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to pass the following rule for the Orissa Canals:—

All low-lying lands which cannot ordinarily benefit by canal water shall be excluded by the Deputy Revenue Superintendent from a kharif lease of five years, or exempted from assessment.

Proviso.—If owing to extraordinary drought in any year during the currency of such lease, such exempted lands, or any portion of them, can and do benefit, the cultivators shall be liable in such year for the crop benefited.

J. M. McNEILE, Col., R.E.,
Secretary to the Government of Bengal.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTIFICATION—No. 227 Marine.

The 3rd September 1890.—In exercise of the power conferred by section 5 of the Indian Explosives Act, IV of 1884, the Lieutenant-Governor of Bengal is pleased, with the previous sanction of the Governor-General in Council, to make the following rules to regulate the transport and importation of explosives in the Port of Calcutta.

These rules are supplementary to the rules relating to the transport and importation of explosives made by the Governor-General in Council, and published under Home Department Notification No. 1417, dated the 24th June 1887.

J. M. McNEILE, Col., R.E.,
Secretary to the Government of Bengal.

N. B.—“Explosive” as defined in section 4, Act IV of 1884, and as used in these rules—

- (a) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powder, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and
- (b) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions, and every adaptation or preparation of an explosive as above defined.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosive, as defined in section 4, Act IV of 1884, except 15lbs common gunpowder in addition to 12 rockets and 12 blue-lights. All explosives which vessels are by this rule permitted to keep on board shall be stored in a copper magazine, out of risk of fire and explosion.

All explosives which by this rule may be ordinarily retained on board vessels in port shall be discharged before a vessel is taken into dry dock.

2. All inward-bound vessels carrying explosives in excess of 15lbs of common gunpowder, in addition to 12 rockets and 12 blue-lights, are prohibited from proceeding above Budge-Budge, and the master of any vessel lying within the port which shall have on board any explosive in contravention of these rules shall be liable to a fine which may extend to the sum mentioned in clause (a) or clause (b), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6, and 7, as laid down in the rules issued under Government of India Notification No. 1417, dated 24th June 1887, that is to say, gunpowder, ammunition and fire-works in excess of the quantity prescribed in Rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping the powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the ship's powder shall not commence until it is landed on the bank, and shall cease as soon as it is shipped on board the boat. Every precaution will be taken to insure the safety of the powder while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's powder, such vessel shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of such consignments, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules, published under Government of India's Notification No. 1417, dated 24th June 1887, viz., safety cartridges, safety fuses for blasting, railway fog-signals, and percussion caps, brought as part of a general cargo, and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' Bye-laws.

7. In order to avoid unnecessary detention, masters of vessels requiring the use of the powder-boat shall hoist a flag at the foretopmast head on coming in sight of the magazine as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ships' gunpowder previously to their being landed: if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed or received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such master for the re-delivery of such packages.

11. Before entering the limits of the port, the master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather, or by being in distress, from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghât, and the master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels outward bound who may require ship's gunpowder for their outward voyage shall not take such powder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15lbs of common gunpowder in addition to 12 rockets and 12 blue-lights.

15. Masters of vessels who have deposited ship's powder at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information orders shall be forwarded to the keeper to place the powder in the boat and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the powder on board, the receipt granted by the magazine-keeper shall be given up.

16. Boats shall be permitted to take on board at the Moyapore magazine and bring as far as Neemuck Mehal Ghât, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50lbs of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder under the provisions of Rules 17 and 18 shall be allowed to proceed above Neemuck Mehal Ghât. All such powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamp between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. No explosives shall be landed within the port at any time when artificial lights are required to be used.

21. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Home Department, No. 1417, dated 24th June 1887, must make their own arrangements for the discharge of the explosives:—

- CLASS 2.—Nitrate mixture.
- 3.—Nitro compound.
- 4.—Chlorate mixture.
- 5.—Fulminate.

22. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore magazine, and shall only be allowed to enter and pass through the port under the supervision of the Port Police and subject to such restrictions as may from time to time be ordered by the Commissioner of Police and the Port Commissioners in addition to the restrictions laid down in the rules promulgated by the Government of India under Notification No. 1417, dated 24th June 1887.

23. Boats containing explosives of the classes specified in the two foregoing rules shall in no case anchor within port limits, or be made fast at any part of the river bank or along-side any vessel, stage, jetty, or pier within the limits of the port. NOTIFICATION—No. 238Mne.

The 9th September 1890.—In exercise of the powers conferred upon him by section 6 of Act X of 1889 (the Indian Ports Act), the Lieutenant-Governor intends to make the following rules under sub-section 1, clause (o) of that section for regulating the employment of persons engaged in cleaning or painting vessels, or in working in the bilges, boilers, or double bottoms of vessels in the Port of Calcutta. The rules will be taken into consideration on the expiry of one month after their first publication in the *Calcutta Gazette*, and the Local Government will receive and consider any suggestions or observations that may be made concerning them before the expiry of that period.

During the months of April to October no European seaman or apprentice shall be employed during the hot hours of the day upon work necessitating direct exposure to the sun.

Unnecessary exposure to sun prohibited.

Masters of vessels requiring work to be performed in bilges, boilers, and double bottoms shall be responsible that such places are free from all dangerous and obnoxious gases, &c., before the men are sent to work in them.

Precautions in working in bilges, boilers, or double bottoms.

Before sending seamen, apprentices, or labourers into the holds of vessels, the hatches of which have been closed for over 12 hours, precautions shall be taken, especially with vessels loading grain in the rainy season, to ascertain by lowering a light the state of the

New Channel—upper end of Central island.

THE Portmaster, Brisbane, has given notice (No. 24 of 1890) that a New Channel has opened out near the Upper End of Central Island, carrying 7 feet at low-water spring tides.

Directions.

By Night.—In passing the Upper End of Central Island, keep the two white leading lights, which will open out on the South, in a line: this will lead 60 feet from the Upper End of Central Island, and 200 feet clear of Hawk point. Vessels must be careful not to get above the line of the two white lights in passing the end of Central Island. A black buoy is laid 300 yards below the line of lights.

By Day.—The beacons upon which the lights are exhibited are to be kept in line. The Old Channel will be kept buoyed and lighted as heretofore for a fortnight.

NOTIFICATION.

The 16th September 1890.—The following Rules for the Subordinate Executive Service Examinations, to be held in 1891, are published for general information :—

1. An examination of candidates for appointment as Deputy Collectors will be held in Calcutta, in March 1891, on dates to be notified hereafter. The following classes of candidates will be admissible to the examination :—

(a) Persons who have passed the B. A. Examination of the Calcutta University, or who can produce satisfactory evidence of having received education up to an analogous standard, provided that they are not more than 25 years of age on the 1st January 1891. The limit of age will not be enforced in the case of candidates who are already gazetted officers of Government, and who satisfy the other conditions of eligibility.

(b) Persons whose names are included in the Secretariat lists of candidates registered for appointment as Deputy Magistrates and Deputy Collectors, provided that they are not more than 30 years of age on the 1st January 1891.

2. No person will be deemed qualified who does not satisfy the following conditions :—

I.—That he has no disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Subordinate Executive Service.

II.—That he is of good moral character.

III.—That he belongs to a respectable family.

IV.—That he produces a certificate of ability to ride, signed by a District Officer.

3. Applications for permission to appear at the examination must be sent not later than the 1st February next to the Under-Secretary in the Appointment Department. Each application must be accompanied by a fee of Rs. 10, and by satisfactory proof that the candidate fulfils the conditions specified above. The certificate of health may, however, be submitted later. It should be signed either by the Civil Surgeon of the district in which the

candidate ordinarily resides, or by one of the Professors of the Calcutta Medical College Hospital. Candidates desiring to present themselves for medical examination at the Medical College Hospital should state their desire in their applications, and they will then receive the necessary permission from the Under-Secretary in the Appointment Department. The fee for medical examination will in all cases be Rs. 4.

4. The subjects of the examination will be as follows:—

FIRST DAY.

MORNING.

shall be responsible that such places are free from all dangerous and obnoxious gases, &c., before the men are sent to work in them.

Before sending seamen, apprentices, or labourers into the holds of vessels, the hatches of which have been closed for over 12 hours, precautions shall be taken, especially with vessels loading grain in the rainy season, to ascertain by lowering a light the state of the air in the hold. A rope shall be fastened to the first man sent down, and the same precaution shall be taken in any case where men are sent below to assist in the rescue of men who have become insensible when working in a hold, fore-peak, or locker in which foul air may have collected or noxious gases may have been generated.

YANG TSE KIANG—SOUTH CHANNEL.

Extension of middle ground and Tung sha bank.

THE British Admiralty has given notice (No. 416 of 1890) that Middle ground, South channel of the Yang tse kiang, has extended about 2 miles south-eastward beyond the buoy formerly marking its south-eastern extreme.

Position of buoy, lat. $31^{\circ} 12' 10''$ N.; long. $121^{\circ} 51' 50''$ E.

Also that Tung sha bank, northern side of South channel, Yang tse kiang, is reported to be growing out at that part of its edge situated N.-W. $5\frac{1}{2}$ miles from Tung sha light-vessel, and consequently ships navigating in the vicinity should not bring Tung sha light-vessel to bear southward of S.E. $\frac{1}{2}$ E.

New Channel—upper end of Central island.

THE Portmaster, Brisbane, has given notice (No. 24 of 1890) that a New Channel has opened out near the Upper End of Central Island, carrying 7 feet at low-water spring tides.

Directions.

By Night.—In passing the Upper End of Central Island, keep the two white leading lights, which will open out on the South, in a line: this will lead 60 feet from the Upper End of Central Island, and 200 feet clear of Hawk point. Vessels must be careful not to get above the line of the two white lights in passing the end of Central Island. A black buoy is laid 300 yards below the line of lights.

By Day.—The beacons upon which the lights are exhibited are to be kept in line. The Old Channel will be kept buoyed and lighted as heretofore for a fortnight.

HIGH COURT NOTICES.

NOTIFICATION.

The 15th September 1890.

THE following rule, made by the High Court of Judicature at Fort William in Bengal under section 632 of the Code of Civil Procedure (Act X of 1882), is published for general information.

By order of the High Court,

H. W. C. CARNDUFF,

*Offg. Registrar.*HIGH COURT, ENGLISH DEPT., CIVIL, *the 15th September 1890.*

CIVIL.

No. , dated the August 1890.

After Rule 5, Clause (d), Chapter I, at page 7 of the General Rules and Circular Orders (Civil) insert the following:—

5A. [*Chapter XIX, Civil Procedure Code, execution of decrees.—C. O. No. of August 1890.*].—The High Court has much reason to believe that the Civil Courts not infrequently “strike off” cases relating to the execution of decrees more for the sake of causing the disappearance of a particular case from periodical returns of pending cases than as a proper order putting an end to an application for execution. It has also been found that such cases are not infrequently restored to the files without any special reason, except as an acknowledgment that the former order was merely formal. Such a practice cannot but be regarded as an attempt to misrepresent the state of business before a Court, and will subject any officer to punishment. The Judges are aware that, from pressure of business in the trial of original suits, Subordinate Judicial officers are in great difficulty in keeping their execution files under proper control, but the High Court must insist upon greater regularity in dealing with cases of execution, for which one day in every week should be specially reserved..

Proceedings connected with the execution of a decree should be dealt with under the same procedure as original suits, and cannot be put an end to or revived save under the procedure expressly laid down by law.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 17, 1890.

PART I A.

Orders and Notifications by the Government of India, &c.

[Reprinted from the "Gazette of India."]

MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

Simla, the 6th September 1890.

HIS EXCELLENCY THE VICEROY AND GOVERNOR-GENERAL will hold a Levée at Government House, Calcutta, on Tuesday, the 16th December 1890, at 9-30 P.M.

All Civil and Military Officers and the Native Officers of the Native Regiments of the Garrison are invited to attend.

Gentlemen purposing to attend the Levée are requested to send their cards to the Aide-de-Camp in Waiting not later than Monday, the 8th December 1890, after which "No Cards" will be received, and to bring with them to the Levée two cards, with their names legibly written on them—one to be given on entering Government House, and the other to the Aide-de-Camp in Waiting at the time of presentation.

Gentlemen who have not already been presented at the Court of St. James or at Government House will be good enough to add the names of Gentlemen who will present them.

Gentlemen wearing uniform will appear in full dress.

Gentlemen not wearing uniform will appear in evening dress.

The carriages of Gentlemen (except such as have the Private Entrée) attending the Levée will enter by the North-East Gate, set down under the Grand Staircase, and pass out by the North-West Gate.

The 8th September 1890.

Their Excellencies THE VICEROY AND MARCHIONESS OF LANSDOWNE will hold a Drawing Room at Government House, Calcutta, on Thursday, the 18th December 1890, at 9-30 P.M.

Ladies purposing to attend the Drawing Room are requested to send their cards and addresses to the Aide-de-Camp in Waiting not later than Saturday, the 13th December 1890, after which "No Cards" will be received, and to bring with them to the Drawing Room two cards, with their names legibly written on them—one to be given on entering Government House, and the other to the Aide-de-Camp in Waiting at the time of presentation.

Ladies who have not already been presented at the Court of St. James or at Government House are requested to send their cards, through the Ladies intending to present them, with their addresses, to the Aide-de-Camp in Waiting as soon as possible.

Ladies who present others should themselves attend the Drawing Room.

Ladies attending the Drawing Room will be expected to appear in full dress, but without trains.

The carriages of those who have the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs, and pass out by the North-West Gate.

The 12th September 1890.

His Excellency the Viceroy will leave Simla on Tuesday, the 21st October 1890.

His Excellency will visit Patiala, Nabha, Ulwar, Ajmere, Oodeypore, Jodhpore, Mount Abu, Jeypore, Delhi, Agra, Bhurtore, Deeg and Benares, and will arrive at Calcutta on Tuesday, the 9th December 1890.

All covers intended to reach His Excellency the Viceroy, and Governor-General and Party during His Excellency's tour should be addressed "Governor-General's Camp" without the addition of any post-town.

The Party accompanying His Excellency the Viceroy on tour is as follows:—

1. His Excellency the Viceroy.

Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION—EXAMINATIONS.

Simla, the 12th September 1890.

No. 58.—The following regulations respecting the Examination of Candidates for the Civil Service of India to be held in June 1891 are published for general information:—

COPIES OF THESE REGULATIONS AND OF THE FORM OF APPLICATION MAY BE OBTAINED ON APPLICATION TO THE SECRETARY TO THE GOVERNMENT OF INDIA, HOME DEPARTMENT.

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF JUNE 1891.

N.B.—The Regulations will be different for the Open Competition of 1892.

1. On the 1st June 1891, and following days, an Examination, open to all qualified persons, will be held in London (a). Not fewer than 31 persons will be selected, if so many shall be found duly qualified; viz., for the Lower Provinces of Bengal (including Assam); for the Upper Provinces of Bengal (including the Punjab and Oudh); for Burmah; for Madras; and for Bombay (b).

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) That he is a natural born subject of Her Majesty.

(ii) That his age will be above seventeen years and under nineteen years on the 1st January 1891.

N.B.—In the case of Natives of India, (i) and (ii) must be certified by the Government of India, or of the Presidency or Province in which the Candidate may have resided.

(iii) That he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India.

(iv) That he is of good moral character.

3. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee (c), will be admitted to the Examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of

(a) An order for admission to the Examination will be sent to each Candidate on the 18th May.

(b) The numbers for the different Presidencies will be announced hereafter.

(c) The fee (££) will be payable by means of a special stamp according to instructions which will be communicated to Candidates.

any Candidate should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and if already selected will be removed from the position of a Probationer.

4. The examination will take place only in the following branches of knowledge :—

	Marks.
English composition	300
(d) History of England, including a period selected by the Candidate ..	300
(d) English Literature, including books selected by the Candidate ...	300
Greek	600
Latin	800
French	500
German	500
Italian	400
(e) Mathematics (pure and mixed)	1,000
Natural Science; that is, the Elements of any two of the following Sciences, viz.—	
Chemistry, 500; Electricity and Magnetism, 300; Experimental Laws of Heat and Light, 300; Mechanical Philosophy, with outlines of Astronomy, 300.	
Logic	300
Elements of Political Economy	300
(f) Sanskrit	500
(f) Arabic	500

Candidates are at liberty to name any or all of these branches of knowledge. No subjects are obligatory.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (g) in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

7. The Examination will be conducted on paper and *vis à voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the Selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A selected Candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for two years, during which time they will be examined periodically with a view of testing their progress in the following subjects (h) :—

	Marks.
1. Law	1,250
2. Classical Languages of India—	
Sanskrit	500
Arabic	400
Persian	400
3. Vernacular Languages of India (excepting Hindustani when taken up by Madras Candidates, and Gujarati), each	400
4. The History and Geography of India	350
5. Political Economy	350

(d) A considerable portion of the marks for English History and Literature will be allotted to the work selected by the Candidate (see notice on p. 4.) In awarding marks for this regard will be had partly to the extent and importance of the period or books selected, but chiefly to the thoroughness with which they have been studied.

(e) The examination will range from Arithmetic, Algebra, and Elementary Geometry up to the elements of the differential and integral calculus, including the lower portions of applied Mathematics.

(f) The standard of marking in Sanskrit and Arabic will be determined with reference to a high degree of proficiency, such as may be expected to be reached by a Native of good education.

(g) Marks assigned in English Composition and Mathematics will be subject to no deduction. Each science will, for the purpose of deduction, be treated as a separate subject.

(h) Full instructions as to the course of study to be pursued will be issued to the successful Candidates as soon as possible after the result of the Open Competition is declared.

In these Examinations, as in the Open Competition, the merit of the Candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one Examination. The Examination will be conducted on paper and *visd voce*, as may be deemed necessary. The last of these Examinations will be held at the close of the second year of probation, and will be called the "*Final Examination*," at which it will be decided whether a Selected Candidate is qualified for the Civil Service of India. At this Examination Candidates will be permitted to take up any one of the following branches of Natural Science, viz., Agricultural Chemistry, Botany, Geology, or Zoology, for which 350 marks will be allowed. Candidates for Madras and Bombay will also be permitted to compete for Prizes in Hindustani and Gujarati respectively.

10. Candidates will be tested during their probation as to their ability to perform journeys on horseback; and no Candidate will be deemed qualified for the Civil Service of India who fails to satisfy the Civil Service Commissioners of his competence in this respect.

11. Any Candidate who, at any of the periodical Examinations, shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected Candidates.

12. The selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that Service.

13. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, S.W.," at any time after the 1st December 1890. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 31st March 1891 (i).

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

- (1) *Selected candidates will be permitted to choose, according to the order in which they stand in the list resulting from the Open Competition, so long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed; but this choice will be subject to a different arrangement should the Secretary of State or the Government of India deem it necessary (k).*
- (2) *The Probationers, having passed the necessary Examinations, will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*
- (3) *The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the Final Examination. In view of the change in the limits of age, Candidates selected in 1891 will rank in the Service next below those selected in 1892.*
- (4) *An allowance amounting to £300 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's, and Aberdeen; University College, London; and King's College, London; provided such Candidates shall have passed the required Examinations to the satisfaction of the Civil Service Commissioners, and shall have complied with such rules as may be laid down for the guidance of Selected Candidates.*
Candidates are not permitted to migrate from the University originally chosen by them to another University without first applying to the India Office for the permission, and receiving the sanction, of the Secretary of State, who will not entertain such applications unless good and sufficient reasons are assigned.
- (5) *All Selected Candidates will be required, after having passed the first periodical Examination and before receiving the first instalment of their allowance, to attend at the India Office for the purpose of entering into an agreement binding themselves, amongst other things, to refund in certain cases the amount of their allowance in the event of their failing to proceed to India. A surety will be required.*
- (6) *After passing the Final Examination all selected Candidates will be required to attend again at the India Office, with the view of entering into covenants, by which, amongst other things, they will bind themselves to agree to such Regulations for the provision of pensions for their families as may be approved by the Secretary of State for India in Council. The stamps payable on these covenants amount to £1.*
- (7) *Candidates rejected at the Final Examination of 1893 will in no case be allowed to present themselves for re-examination.*

(i) These forms should be accompanied by evidence on the points mentioned in Regulation 2, and by a list of the subjects in which the candidate desires to be examined. Evidence of health and character must bear date not earlier than 1st March 1890. Applications for leave to alter or add to the list of subjects named will not be entertained unless received on or before the 5th May.

(k) This choice must be exercised immediately after the result of the Open Competition is announced on such day as may be fixed by the Civil Service Commissioners.

1891.

NOTICE RESPECTING THE EXAMINATION IN THE HISTORY OF ENGLAND AND ENGLISH LITERATURE.

HISTORY OF ENGLAND.

For the guidance of Candidates who may have a difficulty in making their selections for special study under this head, the following list is given as indicating the character and amount of reading that would be regarded as satisfactory.

Any one of the following periods, to be studied generally in "Bright's History," or (for the two first periods) Green's "History of the English People"; and more particularly in portions, selected by the Candidate, of the Text-books named:

1. A. D. 1066-1307.—Stubbs' Select Charters; Stubbs' Constitutional History of England; Freeman's Norman Conquest, Vol. V.
2. A. D. 1461-1588.—Hallam's Constitutional History of England; Froude's History of England; Brewer's Henry VIII.
3. A. D. 1603-1715.—Hallam's Constitutional History of England; Macaulay's History of England; Gardiner's History of England; Wyon's Reign of Queen Anne.
4. A. D. 1715-1805.—Lord Stanhope's History; Sir T. E. May's Constitutional History; Seeley's Expansion of England; Massey's Reign of George III.

English Literature.

Under this head there will be (besides the general paper) a special paper on the following books:—

1. Chaucer.—Prologue. Clerk's Tale.
2. Shakspeare.—Lear. Othello.
3. Bacon.—Essays XXVII to LVIII (inclusive).
4. Milton.—Samson Agonistes. Comus and Lycidas.
5. Macaulay.—Essays on Milton. Samuel Johnson.

The oral examination in English Literature will have reference chiefly to such works, not included in the foregoing list, as the Candidate may offer for the purpose.

CIVIL SERVICE COMMISSION,

July 1890.

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should produce a Certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his Provincial Officers. This Certificate may be obtained from the Registrar-General in London, Dublin, or Edinburgh, or from the Superintendent Registrar of the district in which the birth took place.

II. A Candidate born of European parents in India may produce a Certificate of Baptism from the district in which he was baptised. When such Certificates are not in the possession of the Candidates, an extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a Native of India must have his age and nationality certified by the Government of India or of the Presidency or Province in which he may have resided.

[No Certificates except those issued under Notification of the Government of India, No. 2252, dated 21st August 1888, will be accepted for this Competition.]

Except as noted in paragraphs II and III, every Candidate is expected to produce a Certificate of Birth. The Civil Service Commissioners will not in ordinary cases accept a Certificate of Baptism, or other testimony, unless they are first satisfied that a Certificate of Birth cannot be procured.

Official Certificates of Birth may generally be obtained as follows:—

- (a) For persons born in England or Wales since 30th June 1837.—From the Registrar-General, Somerset House, London, or from the Superintendent Registrar of the district in which the birth took place.
- (b) For persons born in Scotland since 31st December 1854.—From the General Register Office, Edinburgh; or from the Registrar of the parish or district in which the birth took place.
- (c) For persons born in Ireland since 31st December 1863.—From the General Register Office, Dublin; or from the Superintendent Registrar of the district in which the birth took place.
- (d) For persons of English, Scottish, or Irish parentage born on board British ships since the dates mentioned in (a), (b) and (c) respectively.—From the General Register Office, London, Edinburgh, or Dublin, according to parentage.
- (e) For persons born in India of European parents.—From the India Office, London.

Any Candidate who cannot produce a Certificate of Birth from one of the authorities named should, if possible, procure a Certificate of Baptism, and should then apply to the Secretary, Civil Service Commission, for further instructions.

Chittagong Collectorate, the 6th August 1890.

R. W. CARLYLE, Officiating Collector.

NOTICE is hereby given that the undermentioned plots of Government lands appertaining to the old jail compound, situated in mouzah Keranitola, pergunnah Midnapore, in the town of Midnapore, will be separately let out on mourusi mokarari leases at a fixed annual rent of Rs. 3 for each plot by public auction at the Midnapore Collector's Office, on Monday, the 22nd September 1890, corresponding with 6th Assin 1297 Amlī.

The purchasers will be subject to the following conditions of sale.

CONDITIONS OF SALE.

1. Each plot to be leased to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of each plot will be considered as a mourusi mokararidar of the plot subject to the payment of Rs. 2 as annual rent.
2. The lessee will possess a right of permanent occupation in the land subject to punctual payment of the above rent which will not be liable to enhancement.
3. The lessee will be entitled to take and enjoy the fruits of the existing trees or of such trees as may be planted by him in future within his holding. He will also have a right to cut or sell every tree planted and reared by himself or by his predecessors on his holding. The rights declared by the lease to vest in him will devolve on his heirs at his death.
4. The lessee, in case he builds, will be required to submit a plan of the house showing the width of the foundation wall and the level of the lowest floor of the house by reference to the level of the nearest public road. He will also give a general description of the building he intends to erect and of the provisions he intends to make in respect of drainage and latrine accommodation.
5. Until and unless the plan and level submitted by the lessee be approved by the Collector, the lessee will not be allowed to build, and, if he builds, the Collector will have power to demolish his buildings without being liable to any Court for damage or compensation.
6. If the lessee transfer his right in any way or underlet the holding, the transfer shall be made subject to all the conditions of the kabuliyat to be executed by him.
7. All future improvements, additions and alterations in the holding will be also subject to the approval of the Collector of the district.
8. The buildings constructed will not be used for any other purpose than as dwelling-house.
9. The lessee will not excavate any tank or burn any bricks within his holding, and will keep the land free from jungle. If he violate this condition, his lease will be liable to be cancelled, unless he takes due steps to repair the breach of the conditions as may be ordered by the Collector.
10. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
11. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the holding to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
12. A plan of the different plots is in the Collector's Office and can be inspected by the intending purchasers.

R. C. DUTT, Collector.

NOTICE is hereby given that the undermentioned plots of lands, no longer required by Government, situated along the Western or Bettiah Extension of the Tirhoot State Railway, in the district of Chumparun, will be sold as follows:—

Plots 51 to 54 inclusive at Bara on the 8th October 1890; plots 55 to 58 inclusive at Turkaulia on the 9th October 1890; lots 59 and 60 at Simra on the 10th October 1890; and plots 61 to 71 inclusive at Majhowlia on the 11th October 1890. The purchasers of the plots will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the Railway fencing, or plough it closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100 (hundred), the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the land to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt of the orders of the Board approving of the sales; but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Berhampore, the 15th September 1890.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 659 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*. No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

[Third Publication.]

NOTIFICATION—No. 227 Marine.

The 3rd September 1890.—In exercise of the power conferred by section 5 of the Indian Explosives Act, IV of 1884, the Lieutenant-Governor of Bengal is pleased, with the previous sanction of the Governor-General in Council, to make the following rules to regulate the transport and importation of explosives in the Port of Calcutta.

These rules are supplementary to the rules relating to the transport and importation of explosives made by the Governor-General in Council, and published under Home Department Notification No. 1417, dated the 24th June 1887.

J. M. McNEILE, Col., R.E.,
Secretary to the Government of Bengal.

N. B.—"Explosive" as defined in section 4, Act IV of 1884, and as used in these rules—

- (a) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powder, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and
- (b) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions, and every adaptation or preparation of an explosive as above defined.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosive, as defined in section 4, Act IV of 1884, except 15lbs common gunpowder in addition to 12 rockets and 12 blue-lights. All explosives which

vessels are by this rule permitted to keep on board shall be stored in a copper magazine, out of risk of fire and explosion.

All explosives which by this rule may be ordinarily retained on board vessels in port shall be discharged before a vessel is taken into dry dock.

2. All inward-bound vessels carrying explosives in excess of 15lbs of common gunpowder, in addition to 12 rockets and 12 blue-lights, are prohibited from proceeding above Budge-Budge, and the master of any vessel lying within the port which shall have on board any explosive in contravention of these rules shall be liable to a fine which may extend to the sum mentioned in clause (a) or clause (b), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6, and 7, as laid down in the rules issued under Government of India Notification No. 1417, dated 24th June 1887, that is to say, gunpowder, ammunition and fire-works in excess of the quantity prescribed in Rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping the powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the ship's powder shall not commence until it is landed on the bank, and shall cease as soon as it is shipped on board the boat. Every precaution will be taken to insure the safety of the powder while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's powder, such vessel shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of such consignments, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules, published under Government of India's Notification No. 1417, dated 24th June 1887, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps, brought as part of a general cargo, and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' Bye-laws.

7. In order to avoid unnecessary detention, masters of vessels requiring the use of the powder-boat shall hoist a flag at the foretopmast head on coming in sight of the magazine as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ships' gunpowder previously to their being landed: if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed or received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such master for the re-delivery of such packages.

11. Before entering the limits of the port, the master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather, or by being in distress, from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghât, and the master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels outward bound who may require ship's gunpowder for their outward voyage shall not take such powder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15lbs of common gunpowder in addition to 12 rockets and 12 blue-lights.

15. Masters of vessels who have deposited ship's powder at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information orders shall be forwarded to the keeper to place the powder in the boat and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the powder on board, the receipt granted by the magazine-keeper shall be given up.

16. Boats shall be permitted to take on board at the Moyapore magazine and bring as far as Neemuck Mehal Ghât, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50lbs of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder under the provisions of Rules 17 and 18 shall be allowed to proceed above Neemuck Mehal Ghât. All such powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamp between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. No explosives shall be landed within the port at any time when artificial lights are required to be used.

21. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Home Department, No. 1417, dated 24th June 1887, must make their own arrangements for the discharge of the explosives :—

- CLASS 2.—Nitrate mixture.
 „ 3.—Nitro compound.
 „ 4.—Chlorate mixture.
 „ 5.—Fulminate.

22. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore magazine, and shall only be allowed to enter and pass through the port under the supervision of the Port Police and subject to such restrictions as may from time to time be ordered by the Commissioner of Police and the Port Commissioners in addition to the restrictions laid down in the rules promulgated by the Government of India under Notification No. 1417, dated 24th June 1887.

23. Boats containing explosives of the classes specified in the two foregoing rules shall in no case anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

NOTIFICATION—No. 238Mne.

The 9th September 1890.—In exercise of the powers conferred upon him by section 6 of Act X of 1889 (the Indian Ports Act), the Lieutenant-Governor intends to make the following rules under sub-section 1, clause (o) of that section for regulating the employment of persons engaged in cleaning or painting vessels, or in working in the bilges, boilers, or double bottoms of vessels in the Port of Calcutta. The rules will be taken into consideration on the expiry of one month after their first publication in the *Calcutta Gazette*, and the Local Government will receive and consider any suggestions or observations that may be made concerning them before the expiry of that period.

During the months of April to October no European seaman or apprentice shall be employed during the hot hours of the day upon work necessitating direct exposure to the sun.

Masters of vessels requiring work to be performed in bilges, boilers, and double bottoms shall be responsible that such places are free from all dangerous and obnoxious gases, &c., before the men are sent to work in them.

Before sending seamen, apprentices, or labourers into the holds of vessels, the hatches of which have been closed for over 12 hours, precautions shall be taken, especially with vessels loading grain in the rainy season, to ascertain by lowering a light the state of the air in the hold. A rope shall be fastened to the first man sent down, and the same precaution shall be taken in any case where men are sent below to assist in the rescue of men who have become insensible when working in a hold, fore-peak, or locker in which foul air may have collected or noxious gases may have been generated.

Amended particulars of shoal ground eastward of Proudfoot shoal.

With reference to Notice to Mariners No. 107, dated the 29th July last, issued by this Office, the following amended particulars of shoal ground eastward of Proudfoot shoal have been received from the British Admiralty (No. 445 of 1890) :—

- (1.) A pinnacle rock, composed of coral, about 50 yards in diameter, and with a depth of 4 $\frac{1}{2}$ fathoms on it at low water, is situated with Booby island bearing S. 74° E., distant 17 $\frac{3}{4}$ miles.

Position, on Admiralty Chart, No. 2354, lat. 10° 30' 15" S., long. 141° 38' 15" E.

- (2.) A small patch, with a depth of 6 fathoms on it at low water, is situated S.W. $\frac{1}{4}$ S., nine-tenths of a mile from pinnacle rock (1).
- (3.) A patch with a depth of 6 $\frac{1}{2}$ fathoms on it was found S. by W. $\frac{1}{2}$ W., 1 $\frac{1}{2}$ miles from pinnacle rock (1).
- (4.) A patch with a depth of 4 fathoms on it is situated S.W. by W. $\frac{1}{2}$ W., 1 $\frac{1}{10}$ miles from pinnacle rock (1).

Around and between the above there is a level bottom, with depths of 8 to 9 fathoms.

Patch (4) with a depth of 4 fathoms on it is W. by N. $\frac{1}{2}$ N. 3 $\frac{3}{4}$ miles from the rock, with about 18 feet on it, reported in Admiralty Notice to Mariners No. 243 of 1890, 15 miles W. by N. of Booby island, and it is not improbable that the two are identical, as H. CHINA—EAST COAST.

YANG TSE KIANG—SOUTH CHANNEL.

Extension of middle ground and Tung sha bank.

THE British Admiralty has given notice (No. 416 of 1890) that Middle ground, South channel of the Yang tse kiang, has extended about 2 miles south-eastward beyond the buoy formerly marking its south-eastern extreme.

Position of buoy, lat. $31^{\circ} 12' 10''$ N.; long. $121^{\circ} 51' 50''$ E.

Also that Tung sha bank, northern side of South channel, Yang tse kiang, is reported to be growing out at that part of its edge situated N.-W. $5\frac{1}{2}$ miles from Tung sha light-vessel, and consequently ships navigating in the vicinity should not bring Tung sha light-vessel to bear southward of S.E. $\frac{1}{2}$ E.

FITZROY RIVER.

New Channel—upper end of Central island.

THE Portmaster, Brisbane, has given notice (No. 24 of 1890) that a New Channel has opened out near the Upper End of Central Island, carrying 7 feet at low-water spring tides.

Directions.

By Night.—In passing the Upper End of Central Island, keep the two white leading lights, which will open out on the South, in a line: this will lead 60 feet from the Upper End of Central Island, and 200 feet clear of Hawk point. Vessels must be careful not to get above the line of the two white lights in passing the end of Central Island. A black buoy is laid 300 yards below the line of lights.

By Day.—The beacons upon which the lights are exhibited are to be kept in line. The Old Channel will be kept buoyed and lighted as heretofore for a fortnight.

DHANESH CHUNDER ROY, *Persl. Asst. to Commr., for Commr.*

PATNA COMM. 'S OFFICE, BANKIPORE, the 6th September 1890.

NOTIFICATION.

IN accordance with the Government of Bengal Notification of the 23rd July 1887, notice is hereby given that the next Half-yearly Examination of Compounders will be held at 7 A.M. on Monday, the 10th November 1890, at the Temple Medical School, Patna.

2. Every candidate must produce one of the following certificates:—

- (a) From the Superintendent of a Vernacular Medical School that he has attended regularly for one year the compounder class of the school; or
- (b) From the legally-qualified Medical Manager of a Chemist's or Druggist's establishment, recognized by the Inspector-General of Civil Hospitals, Bengal, that he has been apprenticed for a period of three years in his establishment; or
- (c) From a Civil Surgeon that he has assisted in the dispensing of drugs at the Sudder dispensary of a civil station for a period of five years.

Exception.—Any person who, at the time of the extension of section 252 of Act III (B.C.) of 1884 to any municipality, shall have acted as compounder for the seven years preceding in any shop or place of the kind referred to in the above section shall, on producing a satisfactory certificate to this effect, be exempted from producing a certificate of the kind referred to in this rule.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 3, at least one week before the 10th November 1890, at the Office of the undersigned.

Exception.—The students belonging to the compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

N. B.—The attention of candidates is drawn to Rule 5, section (b) of the Government Notification of the 23rd July 1887, or paragraph 2 (b) of this Notification, from which they will observe that the Chemists' or Druggists' establishments, from the legally-qualified Medical Managers of which they obtain their certificates, will have to be recognized by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates' applying to the Superintendent to register their names to appear at the examination.

JUDICIAL.

The 19th September, 1890.

No. 1368.—In accordance with the provisions of section 37, sub-section (1), of the Births, Deaths and Marriages Registration Act (VI of 1886), the Governor-General in Council is pleased to publish, for general information, the following rules which His Excellency in Council proposes to make under section 36 (e) and (f) of the Act.

The draft will be taken into consideration on the expiration of a fortnight from the date of this notification.

1. The descriptive lists to be prepared by the Commissioners appointed under Chapter V of the Act shall show, in three separate classes, the registers or records, or portions of registers or records—

- (a) relating to births, baptisms, namings or dedications;
- (b) relating to marriages;
- (c) relating to deaths or burials.

2. Each list shall show in each class in alphabetical order the places at which the registers or records, or portions of registers or records, therein referred to have been kept.

3. The volumes of the registers or records, or portions of registers or records, kept at each place shall be shown in the list according to the chronological sequence of the entries therein, and the number so assigned to each volume in the list shall be written or impressed on the outside of such volume.

4. The pages of each register or record, or portion of a register or record, examined shall be numbered in consecutive order, and the total number of the pages in each register or record, or portion of a register or record, shall be entered in the descriptive list.

5. The entries in each year in every register or record, or portion of a register or record, examined shall be numbered in consecutive order where this has not already been done, and the total number of entries for each year in each register or record, or portion of a register or record, shall be shown in the descriptive list, together with the dates of the first and last entries.

6. Every blank space, blank page, interlineation and erasure found in each register or record, or portion of a register or record, when examined by the Commissioners, shall be indicated therein by a stamp impressed, and the descriptive list shall show in appropriate columns on what pages in each register or record, or portion of a register or record, such impressions have been made.

7. Entries in registers or records, or portions of registers or records, which purport to be true copies only shall be indicated therein by a stamp impressed, and the descriptive list shall show on what pages in each register or record, or portion of a register or record, such impressions have been made.

8. Every descriptive list shall further show in appropriate columns the following particulars:—

- (1) the name and description of the person from whom each register or record, or portion of a register or record, to which it relates was received;
- (2) the names and descriptions of the persons by whom such register or record, or portion of a register or record, was kept;
- (3) the class or classes of persons to whom the entries in such register or record, or portion of a register or record, relate;
- (4) the condition of each register or record, or portion of a register or record, or any other remarks relating thereto as the Commissioners may think fit to record.

10. Any registers or records dealt with by Commissioners under Chapter V of the Births, Deaths, and Marriages Registration Act, 1886, may be deposited in the office of the Registrar-General of Births, Deaths, and Marriages with the consent of the custodians of them. In the absence of such consent the registers or records shall be returned to their custodians.

Berhampur, dated the 22nd September 1890.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by post in Calcutta after 4 P.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd. Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India

By DR. GEO. WATT, C.I.E.,
Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

•• *No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 40 in India, and 3 guineas in England, exclusive of packing and postage.*

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 11th September 1890, and is hereby promulgated for general information :

ACT NO. XVI OF 1890.

An Act to amend the Births, Deaths and Marriages Registration Act, 1886.

WHEREAS it is expedient to amend the Births, Deaths and Marriages Registration Act, 1886 ; It is hereby enacted as follows :

I. In section 32 of the said Act, for the words "within one year from the date on which this Act comes into force", the words "at any time before the first day of April, 1891," shall be substituted.

Amendment of section 32, Act VI, 1886.

2. The following section shall be added to Chapter V of the said Act, namely :—

"35A. (1) The Governor General in Council, if he thinks fit, may, by notification in the Gazette of India, appoint more commissions than one for the purposes of this Chapter, each such commission consisting of so many and such members as he may, by a like notification, nominate thereto by name or by office, and having its functions restricted to the disposal, under this Act and the rules thereunder, of the registers or records sent under section 32 to such Registrar General or Registrars General as the Governor General in Council may, by a like notification, specify in this behalf.

"(2) If more commissions than one are appointed in exercise of the power conferred by sub-section (1), then references in this Act to the Commissioners shall be construed as references to the members constituting a commission so appointed."

Hooghly Collectorate, the 29th July 1890.

H. G. COOKE, Collector.

NOTICE is hereby given that the undermentioned plots of Government lands appertaining to the old jail compound, situated in mousah Keranitola, pergunnah Midnapore, in the town of Midnapore, will be separately let out on mourusi mokarari leases at a fixed annual rent of Rs. 2 for each plot by public auction at the Midnapore Collector's Office, on Monday, the 22nd September 1890, corresponding with 6th Assin 1297 Amli.

The purchasers will be subject to the following conditions of sale.

CONDITIONS OF SALE.

1. Each plot to be leased to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of each plot will be considered as a mourusi mokararidar of the plot subject to the payment of Rs. 2 as annual rent.

2. The lessee will possess a right of permanent occupation in the land subject to punctual payment of the above rent which will not be liable to enhancement.

3. The lessee will be entitled to take and enjoy the fruits of the existing trees or of such trees as may be planted by him in future within his holding. He will also have a right to cut or sell every tree planted and reared by himself or by his predecessors on his holding. The rights declared by the lease to vest in him will devolve on his heirs at his death.

4. The lessee, in case he builds, will be required to submit a plan of the house showing the width of the foundation wall and the level of the lowest floor of the house by reference to the level of the nearest public road. He will also give a general description of the building he intends to erect and of the provisions he intends to make in respect of drainage and latrine accommodation.

5. Until and unless the plan and level submitted by the lessee be approved by the Collector, the lessee will not be allowed to build, and, if he builds, the Collector will have power to demolish his buildings without being liable to any Court for damage or compensation.

6. If the lessee transfer his right in any way or underlet the holding, the transfer shall be made subject to all the conditions of the kabuliyat to be executed by him.

7. All future improvements, additions and alterations in the holding will be also subject to the approval of the Collector of the district.

8. The buildings constructed will not be used for any other purpose than as dwelling-house.

9. The lessee will not excavate any tank or burn any bricks within his holding, and will keep the land free from jungle. If he violate this condition, his lease will be liable to be cancelled, unless he takes due steps to repair the breach of the conditions as may be ordered by the Collector.

10. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

11. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the holding to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

12. A plan of the different plots is in the Collector's Office and can be inspected by the intending purchasers.

- 1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the Railway fencing, or plough it closer than three feet from its foundation.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100 (hundred), the whole amount to be paid down at once.
- 3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the land to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.
- 4th.—The plots will be sold revenue-free to the highest bidder.
- 5th.—The purchasers shall be put in possession on receipt of the orders of the Board approving of the sales; but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 669 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole set.

*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

Acts of the Governor General's Council assented to by the Governor General

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 29th August 1890, and is hereby promulgated for general information :

Act No. XV OF 1890.

An Act to amend the Indian Paper Currency Act, 1882.

WHEREAS it is expedient to authorise an increase of the amount which may be invested

in securities of the Government of India out of the coin and bullion received for currency notes under the law relating to the Government paper currency; It is hereby enacted as follows :—

1. Section 19 of the Indian Paper Currency Act, 1882, shall be read **XX** of 1882 as if for the words "sixty millions" the words "eighty millions" were substituted.

**Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.**

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th August 1890:

NO. 16 OF 1890.

A Bill to amend the Births, Deaths and Marriages Registration Act, 1886.

WHEREAS it is expedient to amend the Births, Deaths and Marriages Registration Act, 1886; It is hereby enacted as follows:—

1. In section 32 of the said Act, for the words
"within one year from the date on which this Act comes into force", the words "at any time before the first day of April, 1891," shall be substituted.

Amendment of section 32, Act VI, 1886.

Addition of new section 35A, Act VI, 1886.

Constitution of additional commissions for purposes of this Chapter.

2. The following section shall be added to Chapter V of the said Act, namely:—

"35A. (1) The Governor General in Council, if he thinks fit, may, by notification in the Gazette of India, appoint more commissions than one for the purposes of this Chapter, each such commission consisting of so many and such members as he may, by a like notification, nominate thereto by name or by office, and having its functions restricted to the disposal, under this Act and the rules thereunder, of the registers or records sent under section 32 to such Registrar General or Registrars General as the Governor General in Council may, by a like notification, specify in this behalf.

"(2) If more commissions than one are appointed in exercise of the power conferred by sub-section (1), then references in this Act to the Commissioners shall be construed as references to the members constituting a commission so appointed."

STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are two—

- (1) to extend till the 31st March, 1891, the period prescribed in section 32 of the Births, Deaths and Marriages Registration Act, 1886, for the transmission to Registrars General of registers to which that section applies, and
- (2) to enable the Governor General in Council to appoint more than one body of Commissioners for the examination and verification of those registers.

There has been some misapprehension as to the classes of registers to which section 32 of the Act applies, and the consequence is that there are registers which should have been, but were not, submitted for examination and verification by the day specified in the section.

On the other hand, it seems desirable that there should be local commissions, and not one central body of Commissioners, for the examination and verification of the registers, but doubts have been raised whether this is allowable under the Act as it stands.

The 26th August, 1890.

PHIL. P. HUTCHINS.

S. HARVEY JAMES,

Secretary to the Government of India.

The Report for the year 1886-87 and the Resolution thereon.

The Inspector-General of Registration submits the first triennial report in compliance with the instructions of the Government of India contained in Home Department Resolution No. 28—1579-95, dated the 15th July 1887. The Lieutenant-Governor hopes that in future years it may be possible to obtain correct figures and reports from the district offices by the 1st May, so that the Inspector-General may be able to submit his report for the whole province on an earlier date. On the present occasion there has been no delay in Mr. Holmwood's office. The report is full and interesting and at the same time sufficiently concise, and it is illustrated by a useful and instructive map.

2. The following table, which is taken from the body of the report, is of general interest:—

* Including some deeds the registration of which has since become compulsory under the Bengal Tenancy Act.

The most noticeable figures in the above statement are those that show a decrease in optional registrations affecting immoveable property. They are fully explained by Mr. Holmwood, who shows that the decrease is due solely to the gradual introduction of the Transfer of Property Act and to a change in the classification of deeds for the transfer of permanent tenures and holdings of small value by sale or gift. The registration of these was formerly held to be optional, but is now deemed compulsory. In all cases in which sufficient time has elapsed to give these changes their full effect it has been found that optional registrations steadily increase *pari passu* with compulsory ones. There has been a steady increase in the operations of the Department, and its financial position is excellent, the surplus at the close of 1889-90 being larger than that of any previous year. Several new offices have been opened since the close of the year, and the demand for an extension of registration operations still continues.

3. The number of perpetual leases decreased from 78,766 in 1886-87 to 71,642 in 1887-88 and 69,330 in 1888-89, but it again rose to 76,390 in 1889-90. Mr. Holmwood's remarks on this point are of considerable interest and importance. He says:—"There are two great classes of perpetual leases—those given by zemindars to their tenants and those sublet by tenants to others. These two classes fluctuate independently of each other, and the circumstances of each particular district become a factor in determining their variations. But as far as the first class of perpetual leases is concerned, a general rule, such as would be naturally expected, seems to be at work. The amount of land being limited, the settlement by zemindars with their ryots in perpetuity has a tendency to increase up to a certain point, and then to steadily decrease as the majority of the lands become settled. This has actually been observed to be the case in the sub-district of Baraset in the 24-Pergunnahs, where the Sub-Registrar is the most punctual and business-like officer I have under me (which renders his office very popular), and is also a most careful observer and notes facts in connection with registration transactions in the most intelligent manner. He has observed a regular permanent settlement going on during the past two or three years between the zemindars and their ryots, owing to the zemindars finding it difficult to make arbitrary enhancements or ejections under the new law, and the number of registrations under this settlement has already reached its maximum and begun to decline. I have no doubt that this same cause is at work in other sub-districts, where the usual stereotyped explanation is given, that the zemindars find themselves in straitened circumstances owing to a succession of bad harvests; but it is only in particular districts, like those in the Dacca and Chittagong Divisions, where the ryots are prosperous and insist on obtaining some certainty of tenure, that these settlements are at all general." Many of the registrations are, of course, mere paper transactions due to the necessity for re-registration of under-tenures when the ownership of the property is transferred. The disturbance in the ordinary current of land transactions occasioned by the introduction of the Bengal Tenancy Act has rendered it difficult of late years to appreciate the true nature and value of fluctuations in figures of registration of deeds; but the experience of three years of its working

does show that the number of transactions under the head of perpetual leases has steadily increased and tends to reach a certain maximum, after which a decrease may be looked for. The following statement shows the number of perpetual leases registered in some of the important districts since 1882-83, and generally points to the conclusions arrived at by the Inspector-General, although in some districts the individual action of two or three large landholders always affects the statistics, and the bearing of the Tenancy Act upon them is thus prevented from being apparent:—

DISTRICT.	1882-83.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.

4. Of the total number of other than perpetual leases, which rose from 187,263 in 1886-87 to 227,686 in 1889-90, 175,231 were counterparts, the percentage of leases being 23·03 as compared with 27·06 in 1886-87, 23·65 in 1887-88, and 23·72 in 1888-89. Any deductions from these figures are dangerous, as District Registrars appear to be doubtful in some cases as to whether kabulyats should be classed as leases, or merely as the counterparts they are, and because pottahs are also frequently entered as counterparts. Moreover, the prevalence of *zar-i-peshgi* and *kurtaoli* leases, of which no counterparts are given, in the most important districts of Behar, frustrates any attempt at theorizing on these statistics. At the same time it is unsatisfactory to note that some of the District Registrars are of opinion that the low figures for their own districts are due to "the inability of the ryots to exact pottahs from their landlords, and the aversion of zemindars to give pottahs on account of their dignity suffering by so doing, on account of the expense, which they consider unnecessary and the ryots are unwilling to incur, and, lastly, on account of a fear of their ryots obtaining occupancy rights."

5. The number of instruments of mortgage of the value of Rs. 100 and upwards rose gradually from 58,648 in 1886-87 to 77,555 in 1889-90. There was a slight decrease last year in the districts of Rungpur, Dacca, and the Sonthal Pergunnahs. Similar instruments of value less than Rs. 100 also considerably increased during the last three years, the figures of the past year being 130,007 against 72,355 in 1886-87. The increase is in many cases ascribed to failure of crops and the high price of food-grains. An interesting cause of the increase during the past year is reported from Noakhali, where the crops have been good and land operations extensive. The District Registrar supposes that many mortgages of small plots of land have been executed by the ryots who have extended cultivation, for the purpose of buying cattle and agricultural implements. In Sarun, where the circumstances are wholly different, a very similar reason for increase is given. The matter is clearly one for further investigation, and the Inspector-General, who has called for a further report from the District Registrar of Noakhali on the subject, will be requested to notice this point in his notes while submitting the statistical returns for the current year. The increase in deeds of mortgage does not appear to have affected the registrations of obligations for payment of money, including bonds and miscellaneous deeds, such as kabinmahs. The latter rose from 89,795 in 1886-87 to 103,962 in 1889-90. About 82 per cent. of the bonds were of values up to Rs. 100, the rest exceeding that amount. The increase in this case, as in the case of mortgages, is probably due, to a great extent, to the scarcity that affected many parts of Bengal during the past year. The total number of registrations affecting moveable property, excluding wills and written authorities to adopt, increased from 125,188 in 1886-87 to 149,350 in 1889-90.

6. While the aggregate value of property transferred by registered documents increased by more than 520½ lakhs of rupees in 1888-89, it decreased by more than 412½ lakhs during the past year. There was an increase of nearly 11 lakhs in the value of moveable property transferred, but the value

of immoveable property diminished by more than 423 lakhs. It is unsatisfactory to note that no explanation is forthcoming of the wholly unprecedented increase observed last year or of the great fall in the year following. In former years fluctuations in these figures were not considerable, and it is an insufficient explanation to attribute them to general dulness of trade. The Lieutenant-Governor is glad to note that the Inspector-General has called for a special report on this subject, and hopes to hear at an early date what has resulted from a further examination of the details of the statistics now given.

7. Statement XII appended to the report shows that 90,691 transfers of estates and tenures were effected by deeds of sale during the past year against 52,858 in 1886-87 and 81,382 in 1888-89, and that 9.9 per cent. of the purchasers were mahajans, traders or money-lenders, 15.3 per cent. zemindars, 29.6 per cent. intermediate tenure-holders, 24.1 per cent. ryots, and 21.1 per cent. others not specified. The details which show the numbers in each class of purchasers, and the proportion of each to the total, lose much of their value from the fact that certain classes of purchasers, such as mahajans and zemindars, are more likely to register purchases than the lower classes of ryots, and also from the fact that town properties and other estates in the neighbourhood of registration offices must always bear an undue proportion to the total number of transfers registered. The following table compares the sales of ryoti holdings and the number and classes of purchasers during the last four years, and shows a steady increase in the number of such transactions, which is, no doubt, the result of the facilities afforded by the Tenancy Act:—

YEAR.	RYOTI HOLDINGS AT FIXED RATES.							RYOTI HOLDINGS WITH RIGHT OF OCCUPANCY								
	Number of transactions.	PURCHASERS.						Number of transactions.	PURCHASERS.							
		Mahajans, traders, or money-lenders.	Zemindars.		Other land lords.	Ryots.	Others.		Total.	Mahajans, traders, or money-lenders.	Zemindars.		Other land lords.	Ryots.	Others.	Total.

8. The number of registrations under sections 12 and 18 of the Bengal Tenancy Act fell from 79,109 in 1886-87, 76,324 in 1887-88, and 47,391 in 1888-89 to 26,780 in 1889-90. The decrease in the past two years is due, to a certain extent, to the discontinuance of the practice of registering deeds relating to fractional portions of permanent tenures or ryoti holdings at fixed rates, where the partition is not made with the landlord's consent in writing. On the subject of sections 12 and 18 of the Act, Mr. Holmwood remarks: "there is not the least doubt that the levy of landlords' fees under those sections is exceedingly unpopular with both landlords and tenants, and that it is evaded in every possible way. The reasons of this unpopularity are not far to seek. The ryots object to pay the landlord's fee because in a great many cases it is refused by the landlord as being beneath his dignity, or as being likely to amount to an admission of an occupancy right of the tenant, and in nearly every case the ryot is not exempted by its payment from the necessity of giving *salami* to his landlord." Sir Stuart Bayley is inclined to agree with the Inspector-General in his deductions from the figures showing a great increase in the number of registrations of leases, mortgages and sales, and to attribute them to the indirect effect of the Bengal Tenancy Act. Mr. Holmwood's interesting comments on these figures and his explanation of them will be brought to the notice of the Revenue Department.

9. Further enquiry will be made into the forgery cases mentioned in paragraph 53 of the report, and the Inspector-General of Registration will be asked for recommendations on the subject of the rules relating to impounded deeds. Mr. Holmwood's remarks as to the power which is given to Rural Sub-Registrars to give gratuitous advice to parties are useful. There can be no doubt

that a free use of this power by sympathetic officers would largely increase the popularity of registration offices among the lower classes.

10. The number of inspections made by the Inspector-General and other officers during the past year was 861 against 868 in 1888-89 and 906 in 1887-88. His Honour is glad to observe that District Registrars have themselves done a fair share of this work, but would impress on them their direct responsibility for the great falling off in the number of inspections by Sadr Sub-Registrars and Sub-divisional Officers. In 16 of the districts that have sub-divisions there were no inspections made at all, and Sir Steuart Bayley is convinced that there can be no adequate excuse for such a failure in duty. The remarks made by the Inspector-General on the subject of *ex-officio* Sub-Registrars at Sadr stations have been noted by the Lieutenant-Governor, and any further representations or special reports on the subject that Mr. Holmwood may think fit to make will receive His Honour's careful consideration.

11. The following table shows the working of Act I (B.C.) of 1876 for the Voluntary Registration of Mahomedan Marriages and Divorces since its introduction:—

YEARS.	Number of districts in which the Act was in force.	Number of offices open on the 31st March.	Number of marriages registered.	Number of divorces other than <i>kholas</i> registered.	Number of <i>kholas</i> registered.	Total number of ceremonies registered.
1876-77	14	77	2,555	402	161	3,118

1880-81	14	106	5,777	1,874	779	8,430
1881-82	14	107	4,951	2,239	667	7,857
1882-83	14	112	5,068	2,247	766	8,081
1883-84	14	112	4,273	2,315	895	7,483
1884-85	14	112	3,913	2,540	957	7,410
1885-86	14	112	3,993	2,422	1,109	7,524
1886-87	14	112	3,926	2,179	1,147	7,252
1887-88	14	112	4,100	2,478	1,090	7,668
1888-89	14	113	4,527	2,819	1,113	8,459
1889-90	14	113	3,959	3,119	1,137	8,215

The districts of Dinagepur, Pubna, Backorganj, Noakhali, Mymensingh, Bogra, Tipperah, and Dacca showed an increase in the total number of ceremonies registered, while the districts of Khulna, Rajshahye, Rungpur, Faridpur, and Chittagong showed a decrease. The Inspector-General of Registration thinks that in the majority of districts the Mahomedan Marriage Registrars are slowly but surely gaining ground, and that in those districts where they do not do so, it is owing to their own inferior qualifications or to the active opposition of interested headmen and zemindars. Mr. Holmwood was lately asked for a separate report with reference to the alleged unpopularity of the Act, and he has given his reasons for holding that it is not in any way unpopular, though in certain places it is neglected and in certain others its effects are destroyed by the opposition of a few hostile zemindars, and the Lieutenant-Governor is inclined to agree with the view he has expressed. Some practical reforms suggested by Nawab Abdul Latif Bahadur, C.I.E., in a valuable minute on the working of the Act, have been adopted by the Permanent Committee and approved by Government, and they will be immediately introduced. The Act is at the same time to be extended, on the recommendation of the Permanent Committee, to the Town of Calcutta and the districts of 24 Pergunnahs, Jessore, and Murshidabad. As regards the Qazis' Act, the Inspector-General writes that the "Act does not seem to gain ground much, though wherever the Qazis are energetic enough to establish Naib Qazis and get hold of the professional persons who arrange marriages there is a marked increase in their operations. This is specially noticed in the districts of Eastern Bengal." The Lieutenant-Governor hopes that district officers will show more interest in the working of this important Act in the future, and notices with

much pleasure the commendation bestowed by the Inspector-General on the admirable work done by Baboo Nil Ratan Mookerjee in Mymensingh.

12. Mr. Blyth was in charge of the Department throughout the past year, with the exception of a few days of the closing month, and was relieved by Mr. Holmwood, the present Inspector-General, on the 16th March 1890. The thanks of the Lieutenant-Governor are due to Mr. Holmwood for his careful and interesting report. The names of the officers specially commended by the Inspector-General will be noted in the Appointment Department.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Registration for information and guidance.

Ordered also that extract paragraph 8 of the Resolution and extract paragraph 51 of the Report be forwarded to the Revenue Department for information.

Ordered also that a copy of the Resolution, together with a copy of the Report, be submitted to the Government of India, in the Home Department, for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. C. STEVENS,

Offg. Chief Secy. to the Govt. of Bengal.

FLOODS IN THE DISTRICT OF SARUN.

REVENUE DEPARTMENT.

Dated Yacht Rhotas, 26th August 1890.

RESOLUTION.

Read—

Letter No. 28R, dated the 9th August, 1890, from the Commissioner of the Patna Division, asking the sanction of Government to his authorising the Collector of Sarun to make advances under the Agricultural Loans Act and the Land Improvement Advance Act to the extent of Rs. 15,000 in addition to the sum of Rs. 10,000 already assigned to that district on account of heavy inundations.

Read—

Letter No. 2889¹⁵⁰ Fam., dated the 12th August, 1890, to the Commissioner of Patna, approving of his proposal to authorise the Collector of Sarun to make the advances if the Commissioner is satisfied, on receipt of the Collector's report, that advances to such an extent are necessary.

Read—

Letter from the Commissioner of Patna, No. 505G, dated the 14th August, 1890, submitting a report from the Collector of Sarun on the inundations.

Read—

A letter, dated the 24th August, 1890, from the Commissioner of Patna, submitting a further report from the Collector of Sarun on the inundations and the measures he has taken, and is taking, for the relief of distress.

Mr. Bourdillon has shewn both energy and organising capacity in the arrangements made by him for the relief of the distress caused by the floods. The measures taken within the town of Chupra itself are well conceived, and the Lieutenant-Governor was glad to see, on his visit of inspection, that they had been efficiently carried out. The expense has hitherto been met from municipal funds, from money raised by private subscription, and by the diversion to this purpose of a sum collected for His Honour's reception, a transfer most pleasing to Sir Stuart Bayley. But if a moderate grant should hereafter be required from Government, it will be very willingly given.

In the interior it would appear from the eagerness with which grain sent from Chupra by boat was purchased that there is real distress, which all residents will not be able to provide for by buying grain. The Lieutenant-Governor is, moreover, inclined to doubt whether the mahajans will advance to all ryots, now that the usual security has disappeared with the loss of the crop on the ground, and also whether all labourers will be supported, as the best of them will doubtless be, by their usual employers. It seems desirable to establish a village agency for ascertaining the facts, and administering relief where necessary; also for co-operating with the officers whom the Collector proposes to depute to examine applications for loans. These may be freely given, where required, up to the amount of the Government grant for the purpose, and the proceeds may without objection be applied to the support of the ryots, and their cattle. Very small loans may occasionally be made to labourers, on such security as they can offer. The result of the enquiries made by the village agency will indicate how far gratuitous relief is needed; where required it should not be withheld.

The Lieutenant-Governor desires that the additional arrangements now ordered should be made promptly, and does not contemplate their continuance for any length of time. They are applicable in full only so long as the labourers are deprived of work by the effects of the flood, and may be curtailed when the waters subside. The loans will, no doubt, be necessary at a later period, to ease the pressure caused by the loss of the crop.

ORDER.—Ordered, that a copy of the Resolution be forwarded to the Commissioner of the Patna Division for information and for communication to the Collector of Sarun.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

Dacca Divn.	18	Dacca Aug. 30, '90	2.29	Weather—mostly cloudy and rainy. <i>Aus</i> paddy and jute being harvested. <i>Amun</i> paddy thriving. Rivers are rising again rapidly, and <i>aus</i> and jute have suffered to some extent in consequence. Fodder is available, but not in abundance. Common rice sells at from 13 to 15 seers per rupee.
	19	Furreedpur „ 30, '90	3.99	Weather—seasonable. Water rising. State of <i>amun</i> fair. <i>Aus</i> partially damaged. Common rice selling at 13 seers rupee. Fodder scarce; cattle suffering in consequence.
	20	Backergunge „ 30, '90	1.26	Weather—seasonable. Rainfall heavy in Perozepur (5.16 inches), elsewhere much lighter. Outturn of <i>aus</i> crop estimated at 12 annas. Standing crops promise fair, though partially damaged by flood. <i>Amun</i> seedlings damaged by rise of water in some places, but new sowings have done well. Transplantation going on rapidly; an average crop is expected. Common rice selling at about 13 seers per rupee.
	21	Mymensingh „ 30, '90	3.54	Weather—rainy and cool. About three-fourths of the area set apart for <i>amun</i> paddy has been sown and seedlings transplanted. The plants are healthy and very promising. Jute is being harvested. Coarse rice sells at 13½ seers per rupee.
CHITTAGONG DIVN.	22	Chittagong „ 30, '90	6.04	Weather—seasonable. <i>Aus</i> is being harvested. Transplantation of <i>amun</i> going on. Prospects fair. Common rice selling at 16 seers per rupee.
	23	Noakholly „ 30, '90	4.54	Weather—rainy and cloudy. Reaping of <i>aus</i> crop nearly completed. Transplantation of <i>amun</i> progressing.
	24	Tipperah „ 30, '90	4.09	Weather—seasonable; cool, cloudy and wet. Jute and <i>aus</i> rice are being cut. <i>Amun</i> is being transplanted. Floods considerable in the district, but no serious damage done to standing crops. Prices stationary.
	25	Chittagong Hill Tracts. „ 28, '90	4.95	Weather—rainy and sunny throughout the week. Harvesting of early <i>jum</i> paddy continues. Transplanting of late rice crop in low lands nearly finished. Common rice is being sold at 12 seers 15 chittacks per rupee.
BEHAR.		Hill Tipperah „ 29, '90	1.29	Weather—cloudy with occasional showers. Transplanting of <i>amun</i> nearly over. <i>Jum</i> crops promising. Common rice selling at from 13 to 16 seers per rupee.
	26	Patna „ 30, '90	8.27	Weather—very hot. Transplantation of paddy still continues. <i>Marua</i> is being reaped in some places. Prospects of <i>bhadoi</i> crops poor. Sugarcane looks well. Prices of food-grains generally stationary.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.
The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the preceding years. The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 'c' and an overcast sky by 'l'. The numerical means or average of the rain/fall in that district determined from the returns sent in by the sub-divisional station for the period in question during the year ending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

or the week ending Friday, the 29th of August 1890.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE
29TH OF AUGUST 1890.**

WEATHER conditions have been very similar to those of the previous week: pressure slightly above the normal and subject to small oscillations, temperature uniformly below in the northern and normal on an average in the southern districts, while the rainfall distribution is identical, scattered in Orissa, South-West Bengal, and parts of Chutia Nagpur and East Bengal, and considerably above the normal in North Bengal and Behar. These conditions have been very constant from day to day, and with the exception of a brisk rise of pressure in the middle of the week in the northern districts while the barometer remained steady in the north-west of the Bay, pressure changes have had little or no influence in altering the general distribution. Lowest pressure has generally been over the north-west of the province, and gradients running east and west, accompanied by the normal circulation of winds, south-west in Orissa and Chutia Nagpur, south-east in East Bengal, and easterly elsewhere. At times westerly winds blew in South Behar, but directions in that district have been irregular and velocity at times very low. On the 26th, when pressure rose between a twentieth and a tenth of an inch in all districts except Orissa, where the rise was only about a hundredth of an inch, a depression formed in the north-west corner of the Bay and adjacent land, but it disappeared by the following day, leaving very uniform pressure over the greater part of the province, gradients being somewhat steeper than usual in the east. After the 26th pressure fell slowly, and the distribution at the end of the week was exactly similar to that at the beginning, but wind circulation was much lighter in North Bengal and Behar, and rainfall not so heavy or general.

Pressure—On the 23rd, the first day of the week, was rising slowly in Orissa and South-West Bengal, and falling slowly in the other districts; on the 24th it remained steady and again fell slowly on the 25th, when the distribution was practically normal, but slightly above, the largest excess being less than a twentieth of an inch in Orissa. On the 26th the most important change of the week occurred, after which excess varied from a twentieth of an inch in Orissa to a tenth in North Bengal. During the latter half of the week there was a steady slow fall in all districts except in Behar and Chutia Nagpur, where a brisk rise occurred on the 29th. The distribution at the close of the week was again nearly normal, there being a slight defect in North Bengal, and a small excess elsewhere, largest in the western districts, but nowhere over a twentieth of an inch. Average pressure for the week is about a twentieth of an inch above the normal in Orissa, and elsewhere about three-hundredths.

Temperature—At the beginning of the week was falling in all districts, and the daily means were below the normal by variable amounts ranging up to nearly 5° in Orissa and South Behar. The defect occurred to a greater extent during the day than at night, and the difference from the average maximum temperature for the season was over 6° at False Point and Arrah, while defect in night temperature was only 2·5° and 2·3° respectively. From the 24th to the 28th temperature rose steadily, and by the latter date defect had almost disappeared. On the 29th a general fall again took place, giving defect at nearly all stations; but on this occasion while a large defect occurred in the day temperatures in North Bengal and North Behar, these were nearly normal in South Behar, and minimum temperature was from 3° to 5° below the normal. The means for the week are all below the normal except that for South-West Bengal, where however excess is only a tenth of a degree. Defect in Assam is 2·4°, North Behar 1·4°, South Behar 1·3°, Chutia Nagpur ·9°, Orissa ·8°, East Bengal ·7°, and North Bengal 2°.

Rainfall—As stated above, has been scattered in South-West and East Bengal and Chutia Nagpur, but heavy and general elsewhere, especially during the first two and last two days of the week. Falls in Orissa have been variable: under 1 inch in Balasore, over 2 in Pooree, and over 3 inches at Cuttack and Kendrapara. In parts of Midnapore, Jessore, and Moorsshedabad falls are over 2 inches, but elsewhere in South-West Bengal they are generally between 1 and 2 inches. In East Bengal heavy rain fell on the 23rd in Chittagong, Backergunge, and Noakholly, and on the 29th in Furreedpore, Dacca, Tipperah, and Mymensingh, but the total falls for the week are very variable, ranging from half an inch to 6 inches. In Julpigoree, Cooch Behar, and Darjeeling hills general heavy rain has fallen, the heaviest falls being Alipur Dooar 20·3 inches, Mickilgunge and Buxa over 18 inches. In the other districts of North Bengal falls vary from 1 inch to 10 inches. In Behar the distribution is more uniform, at about 4 inches, but sometimes as high as 10 inches. The means for the larger divisions are above the normal in East and North Bengal and Behar and below elsewhere. Excess in North Behar is 3·26, in South Behar 2·12, North Bengal 2·05 inches, and the largest defect is 1·11 inches in South-West Bengal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 29th of August 1890 :—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.							RAINFALL.

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 16th August 1890.

BIRTHS.

THE births registered during the week ending with Saturday, the 16th August 1890, in twenty-seven principal towns of Bengal, correspond to an annual rate of 18·7 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 3·7 lower than the average rate of the corresponding week of the past five years, and is also lower than the rate of the corresponding week of any of the past five years, except 1887—*vide* the figures below :—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885-89.	1890.
Ratio of births per 1,000 of the population per annum	20·7	22·7	17·9	20·1	21·8	23·4	18·7

The births registered in each of the last four weeks in each of the twenty-seven principal towns correspond to the following rates per 1,000 of the population :—

RULES UNDER ACTS I (B.C.) OF 1889 AND I OF 1882.

GENERAL DEPARTMENT.

Calcutta, the 9th September, 1890.

RESOLUTION.

READ—

The Resolution dated the 17th April, 1890, publishing for public criticism draft rules as to emigration to the tea districts of Assam under Act I (B.C.) of 1889 and Act I of 1882.

Read also the following letters commenting on the draft rules:—

Letter from the Superintendent of Emigration, No. 1083, dated the 17th May, 1890.

Letter from the Superintendent of Emigration, No. 1119, dated the 27th May, 1890, covering a communication from the Indian Tea Association.

Letter from the Consulting Engineer to the Government of India for Guaranteed Railways, No. 945, dated the 22nd May, 1890.

Letter from the Superintendent and Remembrancer of Legal Affairs, No. 466, dated the 14th July, 1890.

Letter from the Superintendent of Emigration, No. 1573, dated the 19th August 1890.

Draft rules for the further guidance of those conducting emigration to Assam either under Act I of 1882 or Bengal Act I of 1889 were published for public criticism in the *Calcutta Gazette* of the 14th May last. The suggestions received in reply having been considered, and adopted in nearly every

instance, the following rules are now approved by the Lieutenant-Governor with effect from the 1st October next :—

Rules issued in addition to the existing rules under Act I (B.C.) of 1889.

18. The daily despatch of emigrants by train shall be previously arranged for by the forwarding agent with the Railway authorities concerned, so as to prevent overcrowding by the securing of sufficient carriage accommodation for the whole number of emigrants intending to travel.

19. The agent shall provide for emigrants started on a railway journey after 9 A.M. a cooked meal, and for those started at or before that hour, if a cooked meal cannot be provided, a dry meal instead, consisting of bread or biscuit and sugar in the proportion of one pound of bread or two large biscuits and one ounce of sugar to each emigrant of and above ten years of age, and half the above quantities to each emigrant under the age of ten years. Also, if the journey between two halting stations is likely to occupy more than six hours, bread or biscuit and sugar in the same proportions shall be given by the agent for distribution to the emigrants for consumption during the journey.

20. When a medical officer has been appointed by Government to examine emigrants, no emigrants shall be put into the train without being inspected and passed as fit to undertake the journey by such officer. The medical officer will report any breach of Rule 19 which may come to his notice.

21. When despatching emigrants by train, the purest drinking water obtainable shall be supplied by the agent in a sufficient number of suitable vessels conveniently placed with the emigrants in the carriages. Emigrants shall be afforded during the journey opportunities for leaving their carriages at three selected watering-stations between Sara and Parbutipur, one-third of the carriages at a time being emptied to admit of the station latrines being used and of additional supplies of drinking-water being obtained.

22. Emigrants about to travel by train shall be accommodated in third class carriages specially reserved for them, or in suitably constructed goods waggons, and the number in each carriage or goods wagon shall in no case exceed the regulation number. When a goods train is used for carrying emigrants, the speed shall not be less than 15 miles an hour on the broad gauge and 12 miles an hour on the metre gauge, exclusive of halts for the convenience of emigrants, but not of other halts.

23. The train journey of emigrants under conveyance from recruiting districts direct to Dhubri or to Goalundo shall be performed by the Hooghly-Naihati route.

24. If cholera occurs on the journey by train, the patient shall as soon as possible be removed by the Railway authorities to the nearest cholera hospital on the line or other suitable place for medical treatment; and particulars of the case, furnishing name of emigrant, batch to which belonging, and depot from which originally despatched, shall be forwarded by the station-master to the officers concerned. The expense incurred in removal to a suitable place for medical treatment shall be debited to the Inland Labour Transport Fund, and subsequently recovered from the forwarding agent or employer interested in the patient.

5A. It shall be the duty of the Superintendent of Inland Emigration to inspect places of accommodation provided for emigrants in Calcutta.

25. The provision of Rule 16 of the rules previously issued shall extend to the present rules.

Rules to be substituted for the existing Rules 64, 65, and 69 under the Inland Emigration Act, I of 1882.

64. The daily despatch of emigrants shall be previously arranged for by the contractor or forwarding agent with the Railway authorities concerned, so as to prevent overcrowding by the securing of sufficient carriage accommodation for the whole number of emigrants intending to travel.

65. The contractor or garden sardar shall provide for emigrants started on a railway journey after 9 A.M. a cooked meal; and for those started at or before that hour, if a cooked meal cannot be provided, a dry meal instead, consisting of bread or biscuit and sugar in the proportion of one pound of bread or two large biscuits and one ounce of sugar to each emigrant of and above ten years of age, and half the above quantities to each emigrant under the age of ten years. Also, if the journey between two halting stations is likely to occupy more than six hours, bread or biscuit and sugar in the same proportions shall be given by the contractor or garden sardar for distribution to the emigrants for consumption during the journey.

69. When a medical officer has been appointed by Government to examine emigrants, no emigrants shall be put into the train without being inspected and passed as fit to undertake the journey by such officer.

69A. When despatching emigrants by train, the purest drinking-water obtainable shall be supplied by contractors or forwarding agents in a sufficient number of suitable vessels conveniently placed with the emigrants in the carriages. In the absence of latrine arrangements, emigrants shall be afforded opportunities for leaving their carriages at three selected watering-stations between Sara and Parbutipur, one-third of the carriages at a time being emptied to admit of the station latrines being used and of additional supplies of drinking water being obtained.

Rules issued in addition to the existing rules under Act I of 1882.

69B. Emigrants about to travel by train shall be accommodated in third class carriages especially reserved for them, or in suitably constructed goods waggons attached to passenger trains only, and the number in each carriage or goods waggon shall in no case exceed the regulation number. When a goods train is used for carrying emigrants, the speed shall not be less than 15 miles an hour on the broad gauge and 12 miles an hour on the metre gauge, exclusive of halts for the convenience of emigrants, but not of other halts.

69C. The train journey of emigrants under conveyance from recruiting districts direct to Dhubri or to Goalundo shall be performed by the Hooghly-Naihati route.

170A. "Whoever commits a breach of any of the following rules under the Act shall be punishable with fine which may extend to Rs. 500:—Rules 19, 37, 49 to 52, 62 to 69, 71, 72, 79, 113, 118 to 120, 163, and 166.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

The following report is published for general information.

H. J. S. COTTON,

Secretary to the Government of Bengal.

REPORT ON THE WORKING OF THE FIRE BRIGADE IN THE
TOWN AND SUBURBS OF CALCUTTA AND IN
HOWRAH DURING THE YEAR 1889-90.

No. 4895, dated Calcutta, the 14th August 1890.

From—J. LAMBERT, Esq., C.I.E., Commissioner of Police, Calcutta,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, under section 30 of Act IV (B.C.) of 1883, the following report on the working of the Fire Brigade in the Town and Suburbs of Calcutta and in Howrah, for the year 1889-90.

2. The Brigade was in attendance at 36 fires during the year, 11 in the Town, 18 in the Suburbs and 7 in Howrah, as compared with 38 fires in the preceding year. The value of the property destroyed was Rs. 4,59,800, against Rs. 13,06,255.

3. Of the several fires which occurred during the year under review, the following call for special notice:—

In the town two destructive fires occurred in the Jorabagan section, in one of which property to the value of Rs. 93,000 was burnt, and in the other several tiled huts and a large godown, containing oil, tobacco and tar, valued in all at Rs. 15,000, were destroyed, and a man who was sleeping in one of the huts was burnt to death. In the port of Calcutta four boats laden with straw and one laden with jute, valued at Rs. 10,340, were destroyed.

In the Suburbs, on the 16th May 1889, a large quantity of hay and straw and 14 tiled huts at Narcoldanga, valued at Rs. 40,000, were burnt, and on the 10th March 1890 the press-house of the Bengal Hydraulic Jute Company in Chitpore, containing 9,000 bales of jute, was destroyed. The value of the property so destroyed was estimated at Rs. 2,70,000.

In Howrah the fires were confined to thatched and tiled huts.

4. A memorandum of the fires, and also a statement of the receipts and expenditure of the Brigade, are enclosed.

5. During the year under reference, 28 persons were prosecuted in the town of Calcutta under the Indian Explosives' Act IV of 1884, for the manufacture, possession and sale of fireworks, and of these 26 were convicted and 2 acquitted.

6. No license for the sale of fireworks was withdrawn during the year.

CREATION OF A FREE STUDENTSHIP IN THE SANSKRIT COLLEGE.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 6th September, 1890.

RESOLUTION.

READ—

A letter from the Director of Public Instruction, No 4808, dated the 29th August, 1890, regarding the offer of Sreemati Sati Devi of Chandannagar to create a free studentship in the Sanskrit College.

The Director of Public Instruction reports that Sreemati Sati Devi of Chandannagar has offered through the Principal of the Sanskrit College to make over 4 per cent. Government securities of the nominal value of Rs. 600 for the creation of a free studentship in the First Arts class of that College for the benefit of a son of a Bhattacharyya Brahmin, on condition that the fee payable by such free student be fixed at Rs. 2 a month, and that the free student be called "Sati Devi's scholar." The Lieutenant-Governor is pleased to accept this offer, and tenders the thanks of Government to the donor for her liberality. The Principal of the Sanskrit College will be the administrator of the fund.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Director of Public Instruction for information and communication to the donor.

Ordered also, that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,
Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE MARINE
DEPARTMENT FOR 1889-90.

No. 2370 Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

RESOLUTION.

Dated Calcutta, the 4th September 1890.

READ—

The Annual Report of the Port Officer of Calcutta for the year 1889-90.

Lieutenant E. W. Petley, R.N., was in charge of the Port Office throughout the year, and the report is submitted by him.

2. The building for the Port and Shipping Offices was not completed during the past year, as was expected at the time when the Annual Report of the Marine Department for 1888-89 was reviewed. It is now nearly finished.

3. The strength of the Pilot Service at the end of the year was 60 pilots of all grades and 17 leadsmen apprentices. The number of pilots now accords with the scale which was sanctioned in the orders dated the 4th July 1888. No leadsmen apprentices were appointed during the year.

4. The leadsmen apprentices still occupy the two houses at Garden Reach rented by Government for their accommodation, and the premises are reported to be admirably suited for the purpose. These quarters were, as in the year before, under the management of a Mess Committee, and the Port Officer, who inspected them frequently during the year, found them to be in excellent order.

5. The following statement shows the number of arrivals and departures during the past two years:—

		1888-89.			1889-90.		
		Number.	Gross tonnage.	Net tonnage.	Number.	Gross tonnage.	Net tonnage.
Arrivals	...	1,037	2,245,867	1,615,935	1,038	2,250,948	1,604,153
Departures	...	1,034	2,240,444	1,608,656	1,018	2,202,819	1,570,776
Total	...	2,071	4,486,301	3,224,591	2,056	4,453,767	3,174,929

6. These figures are exclusive of 13 light-vessels, 13 pilot brigs, and 34 other Government vessels; 2 vessels put back, 7 steam-tugs, which are constantly moving up and down the river, and the steamers trading to the Orissa ports. Of these there were 133 arrivals and 134 departures. They do not also include the native craft.

7. The size and draft of steamers visiting the port still continue to increase. One hundred and forty-three steamers, drawing over 21 feet, entered the port during the year under review, against 120 in the year before.

8. The average number of vessels piloted by the several grades of the Pilot Service, with the exception of the Junior Masters, was in excess of that of the preceding year. The number, however, that fell to the share of Junior Masters came down from 3.26 a month in 1888-89 to 3.13 during the year under review. It is very difficult to reconcile all the interests involved in the division of tonnage amongst the several grades of pilots, but on the whole the arrangement which was sanctioned in the orders of the 4th July 1888 has worked well so far.

9. Thirty-nine cases of grounding and five of collision took place during the year, against 50 and 12 in the year before. None of these casualties, however, resulted in the loss of a vessel, and in one only was serious damage done. The collisions were all accidental, but as regards the groundings blame was attached to the pilots in ten cases. Eight of these were due to error of judgment, one to inattention, and one to unskilfulness. The remaining cases of grounding were either accidental or unimportant, or due to alteration of channel.

The percentage of casualties amounted to 2·14, against 2·99 in the year before and 2·84 in 1887-88. The reduction of the percentage is satisfactory.

10. The Eastern Channel and the lower part of the Gasper have remained unaltered, but the channel between the Longsand and the Upper Gasper light-vessels deteriorated considerably. The channel between the Longsand light-vessel and the Longsand spit buoy has also shoaled somewhat, and there is no anchorage for deep vessels anywhere between the Lower Eastern Gasper and the Longsand spit buoys. The Eden Channel has improved, and has 17 feet of water in the best track over the bar. It is stated that seven inward-bound vessels and two outward-bound were delayed for want of sufficient water over the bars. This does not, however, take account of vessels being kept in the port for want of water over the bars during certain stages of the tides. Were these cases included, the number of outward-bound vessels delayed would be higher.

11. The new steamer *Guide*, which was built in England to take the place of the *Undaunted*, arrived towards the close of the year, and was, after being surveyed, taken over from the builders and fitted out for duty. The vessel is well fitted in every way for the service on which she is employed. She has, since the close of the year, been taken over by the Government of India in the Marine Department. The new pilot brig *Fame* arrived at the beginning of the year. Considerable expenditure had to be incurred on alterations and in rectifying defects to make her fit for the work of a pilot brig. The *Sarsuti* was thoroughly overhauled, cleaned and painted during the year, and is reported to be in good condition. The hull, rig and equipment of the *Coleroon* were thoroughly repaired to render her efficient with the usual ordinary repairs for some years to come. The new launch for the Port Officer has been completed since the close of the year.

12. One hundred and twenty-four candidates were examined for colonial and local certificates of competency of various grades, of whom 88 passed. Of the successful candidates, 19 obtained colonial certificates of competency as master, 24 as first mate, 3 as only mate, 17 as second mate, 3 as first class engineer, and 6 as second class engineer. The local certificates consisted of 1 master's, 1 first mate's, 2 second mate's, 4 second class engineer's, and 44 engine-driver's. One candidate obtained a license as a steam-tug pilot, and three certificates as master were granted under Act VI of 1884. The licenses of two of the native pilots were renewed, 14 new permits were granted to native coasters and 6 were renewed. Five vessels were registered under the English Merchant Shipping Act of 1884, and the registry of three was cancelled.

13. The Government of India having asked for a separate report on the working of the Native Passenger Ships Act, 1887, the number of certificates issued during the year is not given in the report under review.

14. Lieutenant Petley's management of the department during the year was entirely satisfactory.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Col., R.E.*,
Secretary to the Government of Bengal.

ORISSA.			
ORISSA DIVN.	38 Cuttack Sept. 6, '90	1 36	Weather—hot. Harvesting of <i>satika</i> paddy going on. <i>Sarad</i> paddy crop suffering from want of rain in the Jajpur subdivision as well as in the Brahama and Kishennagar outposts of the Sudder subdivision. Prospects elsewhere good.
	Poores „ 4, '90	3 45	Weather—seasonable. Weeding of <i>sarad</i> crop going on. <i>Beali</i> is being harvested. The subdivisional officer reports that diseases called <i>kakalla</i> and <i>haldi goondi</i> have appeared in the <i>sarad</i> crop. Price of common rice ranges from 18 seers 6 chittacks to 21 seers per rupee.
	Khoorda „ „	0 32	
	39 Banpur „ „	2 07	
	40 Balasore „ 6, '90	0 29	Weather—hot and dry. Fairly good rain has fallen at Bhuddruck, but most parts of the Sudder subdivision are suffering greatly from drought. Prices rising.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
CHOTA NAGPORE DIVN.	41 Hazaribagh Sept. 6, '90	Nil	Weather—fine and bright and very warm. Rice crop doing well, but more ruin is now wanted. <i>Gundli</i> , <i>marua</i> , <i>goradhan</i> , and Indian-corn are being harvested: all below average. Prices about stationary.
	42 Lohardugga „ 6, '90	Nil	Weather—hot and cloudy. Reaping of <i>gundli</i> going on. Prospect of <i>bhados</i> good. Rain wanted for winter rice. No material change in prices of food-grains.
	Palanow (up to 1st Sept.)	3 10	
	43 Singbhoom Sept. 6, '90	1 34	Much more rain wanted, but there seems to be but little hope of any at present. No further damage reported to the rice crop, but unless good rain falls within the next week, much damage will be done. Price of common rice shews a tendency to rise.
	44 Manbhoom „ 6, '90	0 27	Weather—very hot. Break in the rains doing great harm to winter rice crop. Rain urgently wanted. Common rice selling at from 16 to 22 seers per rupee.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of August 1890.

	Inches.	Date.	Hour.
The mean pressure of the month	29.627		
The average pressure of August from 24 years' registers ...	29.598		
The highest pressure in the month	29.762	26th	10
The lowest pressure in the month	29.463	10th	16
The range of pressure	0.289		
Hours.			
The total number of hours of bright sunshine during the month	122.3		
The maximum possible number of hours of sunshine ...	398.4		
°			
The mean temperature of the month	82.5		
The average temperature of August from 24 years' registers ...	83.1		
The highest temperature in the month	89.8	4th and 18th.	
The lowest temperature in the month	74.6	22nd.	
The range of temperature during the month	15.2		
The mean daily range of temperature	9.8		
The greatest range of temperature in one day	14.5	5th.	
Per cent.			
The mean humidity of the month	87		
The average humidity of August from 24 years' registers ...	86		
Inches.			
The mean vapour pressure of the month	0.964		
The average vapour pressure of August from 9 years' registers	1.002		
The mean cloud proportion of the month	7.41		
The average cloud proportion of August from 13 years' registers	8.09		
The total rainfall of the month	9.04		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	8.85		
The average fall of August from 48 years' registers ...	13.94		
The greatest fall in 24 hours	1.74	5th.	
Days.			
The number of rainy days in the month	23		
The average number of rainy days in August from 24 years' registers	25		
°			
The mean maximum equilibrium temperature of solar radiation during the month	144.3		
The mean difference of sun and air temperatures	57.5		
The greatest sun temperature	155.7	4th.	
The greatest excess of sun over air temperature	67.9	13th.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	75.7		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	1.8		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	3.3	17th.	
Miles.			
The mean movement of the wind per day	67.6		
The greatest movement of the wind in one day	142.0	28th.	
The greatest movement of the wind in one hour	15.0	28th noon to 1 P.M.	
The number of hours with winds from each of the 8 points—			
N. 2, N.E. 9, E. 50, S.E. 134, S. 241, S.W. 134, W. 16, N.W. 1, Calm 157.			

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6 higher; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF AUGUST 1890.

THE chief peculiarities in the weather of the month of August have been—

(1). Pressure has been either normal or slightly above the normal, and though it has never differed much, there is a moderate excess in the means for the month.

(2). Temperature has been slightly below the normal in the southern and largely below in the northern districts, especially during the latter half of the month.

(3). Rainfall has been scattered in Lower Bengal throughout the month, and was very scanty in the northern districts during the first two weeks, but during the last two heavy and general rain fell, and in consequence the total falls in the northern half of the province are several inches above the normal.

(4). Stormy weather has never occurred, but several very unimportant depressions formed off the Orissa Coast and either filled up shortly afterwards or moved in a north-westerly direction. The only effect of these depressions in Bengal was slightly higher wind velocities for a day or two, and the scattered rainfall in the early part of the month when most of them occurred.

(5). Very light winds have been blowing except in the eastern districts, as is shown by a table given below of velocities at a few coast stations.

During the first half of the month, the trough of low pressure extended from the head of the Bay in the usual north-westerly direction, and the wind circulation was without interruption southerly or easterly in East and North Bengal and Behar, but in Orissa, South-West Bengal, and Chutia Nagpur wind directions were more variable because of the influence of the shallow depressions, three of which formed during the first two weeks. The monsoon current flowing over the province during this period was, therefore, entirely from the Bay, and as it passed without interruption into the North-Western Provinces, very little rain fell in Bengal. Conditions changed during the second half of the month. The trough of low pressure either moved close up to the hills, or the distribution over Bengal was very uniform, in both of which cases the moist current from the west of India was likely to force its way over the western districts and at times the whole of Bengal. In North Bengal and Behar frequent changes of winds from east to west occurred, and then rainfall was heavy and general. From the 17th to the 19th westerly winds were blowing as far east as Dinagepore, but on the 20th a shallow diffused depression over the head of the Bay and South-West Bengal gave the usual cyclonic circulation, which continued till the 22nd, after which westerly winds blew for several days, and again towards the end of the month. The heavy rain in Behar and North Bengal was probably due to the western current as that from the Bay was very weak, or perhaps to the interference of the two currents, an upward motion and greater condensation probably resulting.

The depressions during the month have, as stated above, been unusually feeble and at times would have been hardly noticeable but for a faint cyclonic circulation. The first began on the 2nd, close to the coast of the Circars, where it remained deepening slightly, but almost without change of position till the 6th, when it moved in a north-westerly direction into Central India. On the 9th pressure was again lowest at the southern end of the trough off the Orissa Coast, and winds were irregularly cyclonic at a few neighbouring stations, but on the 10th a considerable deepening occurred in the Central Provinces, which caused strong easterly winds over the whole of Bengal with the exception of Orissa. This shallow low pressure area moved to the north-west and filled up, after which pressure was again lowest over the western districts of Bengal, from which a similarly shallow depression moved to the west and filled up several days afterwards in the North-West Provinces. Up to this date, therefore lowest pressure was either over Orissa or the western districts, and hence steady southerly and easterly winds were blowing except near the depressions. During the latter half of the month two very shallow depressions formed at the head of the Bay, the first on the 19th and the second on the 26th. They both moved in a northern direction over Bengal where they filled up, leaving the pressure distribution very uniform, and caused the influx of westerly winds which was followed by the heavy rainfall in the northern districts during these days.

In the following table are given the actual daily wind velocities for August, compared with the normal values for the same period at stations on and near the coast line from Akyab to Gopalpore. At all of these, except Dacca, the velocity is below the normal, the greatest differences being at Calcutta, Saugor Island, and Gopalpore. In August of last year the mean velocity at the various stations was very similar to that of the present year, and then rainfall was deficient in all districts except Orissa, but the trough of low pressure retained its position well to the west of the province, instead of closing up towards the hills about the middle of the month. This tends to show that if the western current had been prevented by the low pressure area from flowing over Bengal, rainfall would have been

again below the normal in the northern districts owing to the very weak monsoon at the head of the Bay.

Pressure—Was considerably above the normal during the first few days of the month, after which a steady fall continued till the end of the first week. The largest excess was on the 4th, when it varied from .1 inch to .15 inch in all districts except Chutia Nagpur, Orissa, and Assam. During the second week there was generally a small defect, and while the shallow depression existed, defect within it was only a little over a twentieth of an inch. Mean defect was about .03 inch in South-West Bengal, Chutia Nagpur, and South Behar, while in the other districts it was rarely over .1 inch. Changes continued to be very unimportant in the latter half of the month, but the distribution was steadily above the normal by amounts ranging up to a twentieth of an inch. As there was a slight defect during the second week only, the means for the month are everywhere above the normal by between two and three hundredths of an inch.

Temperature—Notwithstanding a partial break in the rains, which gradually extended over the province—has rarely been above the normal, and then these higher temperatures generally occurred in the south-west. For the first week means were practically normal in Orissa, South-West Bengal, and East Bengal, and below elsewhere by amounts between .4° in Chutia Nagpur and 2.1° in North Behar. In the second week greater irregularity occurred, and excess was confined to the northern districts. After rainfall became more general, low temperatures were again recorded in Behar and North Bengal, and till the end of the month considerable defect prevailed. During the third week temperature was about 1° above the normal, but toward the end of the month lower temperatures were general, and means were normal, in South-West Bengal and about 1° below in the other districts except North Bengal, where the difference was slight and Assam where it exceeded 2°. The monthly mean for South-West Bengal is normal, and for the other districts below the normal, defect being under half a degree in Orissa and East Bengal and between 1° and 1.5° in Behar and Assam.

Rainfall—Has been deficient in Orissa, South-West Bengal, East Bengal, and Chutia Nagpur, and above the normal in Behar and North Bengal, defect in South-West Bengal being 4.1 inches, in Chutia Nagpur 3.42 inches, in Orissa 2.25 inches, and in East Bengal 1.83 inches; while excess in North Bengal is 4.36 inches, in North Behar 3.94 inches, and in South Behar 2.78 inches. These differences are from 20 to 30 per cent of the normal except in East Bengal, where it is only 12 per cent. In these southern districts the total rainfall up to the end of August does not differ from the normal by more than 6 per cent., but in North Behar excess is 39 per cent., in South Behar 33 per cent., and in North Bengal 21 per cent.

The comparison of the actual rainfall in the various large divisions of the province with the normal is most accurately and conveniently shown in the form of a percentage. The figures representing the rainfall for the month, calculated in this way, are included in the table below under the heading of August. This table really gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first eight divisions giving the actual average rainfalls in each division in each month expressed as a percentage of the normal, while the ninth column gives the total rainfall for the first eight months expressed as a percentage of the normal rainfall for that period—

Falls of more than 15 inches have been received in the south-east corner, including the Sunderbuns, Noakhally, and Chittagong; in parts of the north of Chutia Nagpur, chiefly in the Thakurnagar and Membhoom districts; in Gwa and Patna in South Behar; in the greater

part of North Behar, the exceptions being parts of North Bhagulpore, Durbhunga, and Mozufferpore; and over the whole of the northern half of North Bengal. Falls under 10 inches are confined to the north of Orissa, the south of Chutia Nagpur, the greater part of South-West Bengal, and irregular portions of East Bengal. The heaviest falls in North Bengal are Buxa 51.48, Alipore Dooars 46.07, Cooch Behar 45.36, Matabhanga 43.35, Kurseong and Mickilgunge 37.64, Bhagatpore 37.06, and Julpigoree 31.07 inches. Falls over 20 inches have been received in North Behar at the following stations:—Kissengunge, Balarampore, Kaliagunge and Bagaha; in South Behar at Gya, Aurungabad, and Arwal; in East Bengal at Cox's Bazar, Chittagong, Noakhally, Fenny, and Durgapore. The following stations received less than 5 inches:—Kurdah in Orissa; Garbetta, Bankoora, Bishenpore, Khatra and Anda in South-West Bengal; Daudkandi and Kusba in East Bengal.

As compared with the normal, heavy falls have been received in the south of Orissa, the west of Chutia Nagpur and South Behar, the whole of North Behar and North Bengal; while defect of more than 4 inches is recorded in the east of Chutia Nagpur, the west of South-West Bengal, the Sunderbuns and part of Tipperah. Defect is over 8 inches at the following stations in South-West Bengal and Chutia Nagpur, Tumlook, Bankoora, Khatra and Raipore, and over 10 inches at Chyebassa, Ghattal, Garbetta and Bishenpore. Excess is over 8 inches at Hajipore and Maldah, over 10 inches at Raigunge, Kissengunge and Gya, over 15 inches at Mickilgunge and Aurungabad, and over 20 inches at Cooch Behar and Matabhanga.

The following table gives full data for the comparison of the actual and normal rainfall of the month of August in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past fifteen years; the second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district; the third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage; the fourth column states as a percentage how much the district rainfall of the month varied from the normal—

CALCUTTA, the 9th September 1890.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE
5TH OF SEPTEMBER 1890.**

WEATHER during the past week has been notable for (1) the westerly current which has been blowing steadily in all districts except East Bengal and at times North Bengal: (2) the break in the rains which, being caused by the dry westerly winds, commenced in the western districts in the beginning of the week and gradually spread over the greater part of the province: (3) the high temperature which has resulted from the clear skies and scanty rainfall over the greater part of Bengal.

At the commencement of the week pressure was low along the foot of the hills, and as the difference from the normal was about a tenth of an inch in North Bengal and Assam, westerly winds forced their way as far east as Dhubri. Rainfall was confined to the east and south of the province, where heavy showers continued to fall. Temperature was everywhere considerably below the normal, but a rise of between 1° and 3° was general in the west of Behar, and as rainfall ceased it rose at nearly all stations, defect almost disappearing by the 1st of September. Pressure oscillations were very small throughout the week, and the distribution, though tending to become more normal in North Bengal and North Behar, was not affected to such an extent as would cause a change in the wind circulation. The interference of the southerly winds from the Bay blowing over East and North Bengal with the westerly current from Behar caused the heavier rainfall in these eastern districts, and in part of North Bengal falls were general and heavy throughout the week, while in East Bengal moderately heavy showers fell at nearly all stations during the first half. In Orissa and South-West Bengal the showers were fairly general on the 30th and 31st of August and again on the 3rd of September, but on other days, as in Behar and Chutia Nagpur, practically no rain has been received.

Pressure—Fell briskly on Saturday, the first day of the week, giving lowest readings along the foot of the hills and the greatest difference from the normal in North Bengal and Assam, but on other days changes have been small: first, slowly upwards till the distribution was very nearly normal, and again downwards towards the end of the week. The means for the week in South-West and East Bengal differ from the normal by a few thousandths of an inch only; they are above in Orissa and Chutia Nagpur by about two-hundredths, and below in North Behar and North Bengal and Assam by amounts ranging up to four-hundredths of an inch.

Temperature—Was at first two or three degrees below the normal in Lower Bengal and more than 5° in North Bengal and Assam, but the steady rise which has been going on throughout the week, brought it up to three or four degrees above the normal in all districts except North Bengal and Assam, where there was still a small defect on September 5th, the last day of the week. Defect in the mean for the week is 2.3° in Assam, 1.6° in South-West Bengal, 1.3° in Orissa, and $.5^{\circ}$ in North Bengal, while excess is 1.1° in Chutia Nagpur and $.9^{\circ}$ in Behar. The mean for East Bengal is practically normal.

Rainfall—As stated above, was scattered in the south-western districts on Saturday, Sunday, and Wednesday, and almost absent on the other days. Scattered showers also fell in North Behar on Saturday and Sunday, but, with the exception of these showers, very little rain fell in Behar or Chutia Nagpur. Almost general rain fell in East Bengal and the southern districts of North Bengal during the first half of the week and in the northern half of North Bengal throughout the week. The actual falls expressed as percentages of the normal falls for the large subdivisions are as follows:—North Bengal 108, Orissa 67, South Bengal and East Bengal 62, North Behar 26, Chutia Nagpur 7, and South Behar 2.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 5th of September 1890:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; t, thunder; p, passing temporary showers; d, drizzling rain; lr, lightning reflection; d, dew.

MEMORANDUM.

Monthly review of deaths registered in forty-five districts of Bengal for the month of May 1890.

[The delay in the publication of this review is due to the non-receipt of the Julpaiguri district return, which was received in this office on the 2nd instant, more than *three* months after the month to which it relates.]

The deaths registered in forty-five districts of Bengal during the month of May 1890 were 124,450, and correspond to an annual rate of 22.56 per 1,000 of the aggregate population of those districts, which is 65,859,534. This rate is 1.32 higher than the mean rate of the corresponding months of the past five years 1885-89, and is also higher than the rate of the corresponding period of any of the past five years, except 1887, *vide* the figures below—

	May 1885.	May 1886.	May 1887.	May 1888.	May 1889.	Monthly average of five years, 1885-89.	May 1890.
Ratio of deaths per 1,000 of the population per annum	20.04	18.24	25.44	21.00	20.88	21.24	22.56

The following table shows the highest proportions of deaths registered during the month of May 1890, compared with the corresponding month of 1889 :—

<i>Districts.</i>			Ratio per mille during—		<i>Districts.</i>			Ratio per mille during—	
			May 1890.	May 1889.				May 1890.	May 1889.

Noakhali	...	...	32.64	30.36	Gya	...	...	28.08	15.60

Except in the case of Julpaiguri the figures of May 1890 show a distinct advance towards accuracy in death registration in the districts mentioned which is encouraging.

The total mortality during the month under review from the several registered death-causes is compared in the following table with the mortality from those causes in the corresponding month of 1889 and the average of the five years 1885-89 :—

			Ratio per mille during—		
			May 1890.	May 1889.	Monthly average of five years 1885-89.

Bowel-complaints	...	...	.48	.60	.72
Injury	...	...	.36	.36	.36
Other causes	...	...	2.52	2.64	2.52

Compared with the figures of both the past periods, there is a noticeable increase in the mortality of May 1890 under the head fever, and a sensible decrease in the death-rate from cholera.

The highest annual death-rates from cholera and fever occurred in the following districts :—

<i>Cholera.</i>			<i>Fever.</i>		
			Ratio per mille.

From small-pox high mortality occurred only in the district of Chumparun—mortality 3.12 per 1,000 of population.

The mortality of the month under review, according to *Sex, Class and Age*, was distributed as follows:—

<i>According to Sex.</i>		<i>According to Class.</i>		<i>According to Age.</i>

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 23rd August 1890.

BIRTHS.

The births registered during the week ending with Saturday, the 23rd August 1890, in twenty-seven principal towns of Bengal correspond to an annual rate of 20·7 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 2·7 lower than the average rate of the corresponding week of the past five years, and is also lower than the rate of the corresponding week of any of the past five years, except 1887 and 1888—*vide* the figures below—

SUPPLEMENT TO THE CALCUTTA GAZETTE, SEPTEMBER 10, 1890. 1855

It will be seen that last week the highest mortality occurred in the town of Gya (66·3) and the lowest in Arrah (12·)

Measured by last week's mortality, the highest annual death-rates from the following registered death-causes were as follows:—

<i>Cholera.</i>			<i>Fever.</i>			<i>Other causes.</i>		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Santipore	...	15·8	Jessore	...	36·7	Gya	...	21·1

Patna City	...	7·8	Comillah	...	23·1			
Chupra	...	4·0	Poori	...	20·8			

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 3·7 from cholera, against 3·5 per 1,000 in the preceding week; 10·5 from fever, against 9·4; 2·7 from bowel-complaints, against 3·9; 7·4 from other causes, against 5·4 in the preceding week. Small-pox and injury exhibit the same ratios as in the preceding week, viz., '1 and '4 respectively.

The mortality of last week according to *Sex, Class, and Age* was as follows:—

<i>According to Sex.</i>			<i>According to Class</i>			<i>According to Age.</i>		
		Ratio per mille.			Ratio per mille.			Ratio per mille.

* The decrease in coaching traffic is partly due to a larger number of 3rd class Government passengers booked from the N.W. Ry. via Ghazipur to B in the corresponding period of 1889, and partly to a lesser traffic at Howrah, Allahabad, Cawnpore, and Delhi and some minor stations.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE BHAGULPORE DIVISION FOR THE YEAR 1889-90.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 16th September, 1890.

RESOLUTION.

READ—

The Annual General Administration Report of the Bhagulpore Division for the year 1889-90.

The divisional report is written by Mr. Quinn, who took charge of the office of Commissioner only during the last month of the year, and all the district reports, except that

Tour.

of Maldah, have been submitted by Collectors who were without personal experience of the facts recorded. This consideration affects specially the account given of the annual tours, which can be of much interest only when it is made by the officers who travelled. The arrangements of the Commissioner were disturbed by illness, more or less severe, and the same cause prevented the Collectors of Monghyr, Bhagulpore, and Purneah from devoting to inspection duty the full period prescribed. In Purneah the tour was insufficient owing to changes of officers during the year. The Lieutenant-Governor notices with satisfaction that the tours of the Sub-divisional Officers were in every instance complete.

2. The outturn of the harvest of 1888-89 was seriously deficient, being on the divisional average $10\frac{3}{4}$ annas for rice and 10 annas for wheat, while in the Bhagulpore district Crops, prices, and condition of the people.

the rice harvest was 8 annas only. In the natural sequence prices were high during 1889-90, common rice averaging $15\frac{1}{4}$ seers a rupee against $17\frac{1}{2}$ seers in the previous year. In the Soopol sub-division of Bhagulpore there was a tract classified as distressed where relief operations were undertaken in accordance with the Famine Code. Mr. Wace, Collector of Bhagulpore, observes—

“In those tracts which suffered from the drought of 1888, there was great cause for anxiety in the early part of the year in respect of both the small cultivators and the labourers. The latter were helped by the relief works which were started at various points, but things never got bad enough to drive those classes which are ordinarily above labour on to the works. All through April and May these classes were much pinched in the north-east of Soopol, the north-east and centre of Banka, and in the south-west of the Sudder sub-division. The village mahajun's heart remained as hard as the ground till the rains fell, and ryots seemed to think that Government would repeat the lavish operations of 1874. Advances were, however, kept for the tracts specified above. In Naradigur our work was well supplemented by the Maharaja of Durbhunga. As usual the mahajun came forward when the rain fell at last, and an increase in the registration returns under mortgages and sales shows that he was used more freely than usual, and I fear the year closes with the small cultivators more indebted than ever. They have, however, benefited by getting better prices for the surplus of the harvest just over than they could have expected considering its abundance. The Managers of the Durbhunga Raj and of the Srinagore estate each reports that the advances they made are being rapidly paid up.”

The crop of 1889-90 was distinctly better, averaging $14\frac{1}{2}$ annas for rice, $11\frac{1}{2}$ annas for wheat; but prices have been even higher, perhaps because stocks had been depleted, and the harvest, though tolerable, was not sufficient to replenish them. In Maldah wages of unskilled labour are reported to have risen during the last two years with the price of food, being 3 to 4 annas a day against 2 to 3 annas in 1887-88, and a similar tendency is observed in the district of Purneah. In Monghyr, Bhagulpore, and the Sonthal Pergunnahs no change has been observed in the former rate of two annas a day, as to which the Commissioner, moreover, observes that he does not believe the ordinary agricultural labourers are so highly paid in the interior of the district. Mr. Quinn states that “it may safely be said that the general condition of the people affords no ground for despondency, and that they were distinctly better off at the close than at the beginning of the year. The picture of the Sonthal Pergunnahs, as drawn by the Deputy Commissioner, is decidedly cheerful.” It is probable that the ryots have derived advantage from the high price of rice during the year, their harvests not being deficient, though some portion of the surplus must have gone to replenish stocks and pay debts contracted during the bad season of 1888-89. The labourers north of the Ganges have received full compensation for the enhancement in the cost of living by a rise in wages, and the fact is one of the most assuring observed in recent years. South of the Ganges, in so far as they are paid in money, the working classes must have suffered.

3. In the districts south of the Ganges there was a considerable increase in the number of registered deaths, which were 63,308 in Monghyr against 53,213 in the previous year, 52,214 in Bhagulpore against 48,239, and 28,530 in the Sonthal Pergunnahs against 21,140. The cause of the variation is not explained, but it seems that the year 1888-89 had been unusually healthy, and the high price of provisions must have affected unfavourably the condition of the poorest class in 1889-90. In the districts north of the Ganges, where there is less poverty, the death-rate did not increase. Of Purneah the Commissioner writes—

“The chief feature as regards the health of this district was the great epidemic of cholera which, spreading from the Karagola fair in February 1889, in which month only 125 deaths were recorded, caused 6,198 deaths in March and reached its maximum in the appalling total of 10,232 deaths in April, the first month of the official year under report. The epidemic came to an end in May, in which month 625 deaths were recorded. Two special Civil Hospital Assistants were deputed to the Arrareah sub-division, and cholera medicines were given away freely by the District Board. The total number of deaths from cholera registered during the official year was 12,690 against 883 in the previous year. Deaths from fever amounted to 36,231 against 40,609 in the preceding year. There was practically no small-pox, a result attributed by the Civil Surgeon to the efficiency of the Vaccination Department. The total number of deaths registered in the district during the year was 49,418 against 41,661 in the preceding year. Speaking generally, the health of the district was, except for the cholera epidemic, better than usual. The heavy rain and floods appear to have lessened the tendency to malarious fever.”

The Lieutenant Governor notices with pleasure the statement that vaccination has been fairly maintained throughout the Division, and there was no serious outbreak of small-pox, though in some districts the deaths from this cause were more numerous than in the preceding year.

4. The statistics of manufactures appended to the report are valuable as a beginning, but cannot be relied upon in every case. It is, for instance, impossible to believe that the value of indigo produced in Bhagulpore, returned at over eleven lakhs in 1888-89, had declined to little more than half a lakh in 1889-90. In regard to trade, the increased importation of food and the diminished importation of piece-goods are explained by the failure in the crops of the previous year. There was a marked falling off in the export of piece-goods to Nepal, attributed to the existence of an accumulated stock in that country. The Commissioner observes—

“The opening of the part of the Purneah Section of the Assam-Bihar State Railway from Kusba to Forbesgunge during the year has considerably changed the trade routes of the western and northern parts of the Arracah and Sudder sub-divisions. Produce is now brought from Nepal to Forbesgunge, and thence taken to the Manihari Ghât, where it is shipped and carried westwards by river to Revilgunge. The Kusi boat trade is being abandoned in favour of the railway.”

In Purneah the Collector mentions as a new feature in the trade of the district that in Kishengunge the people are beginning to form joint stock companies, and are gradually superseding the Bengali merchants who used to monopolise the trade at that place.

5. The Commissioner reports favourably of the working of the magistracy, and in particular of the Honorary Magistrates and Benches. Progress was made in securing the regular payment of chowkidars and their attendance at the police-stations. On the other hand the police are said to have done well only in the district of Maldah, and there was an increase in crime, the total number of cognizable cases being 15,864 against 14,507 in the previous year; of non-cognizable complaints 11,395 against 10,905. This is but partly explained by the large number of prosecutions under Municipal and special Acts.

6. The collections on the large Government estate of Damin-i-Koh in the Sonthal Pergunnahs were satisfactory, as with a rent roll of Rs. 1,69,497 there were no remissions and a balance uncollected of only Rs. 832. But in the division generally the arrears at the end of the year were large, amounting to 6·2 per cent. of the land revenue demand, and it is remarkable that even on permanently-settled estates the outstandings were considerable, being 5 per cent of the demand. More than a tenth of the estates defaulted during the year, and 152 were actually sold. In the face of these results, it is not understood how the Commissioner comes to consider that the present system of working the Sale Laws in Bhagulpore Division, which apparently consists in treating the day of auction as the last day for payment, has secured the revenue without hardship to individuals. It is not, however, desirable to make any great change by executive orders at present, as the law on the subject will probably be recast at no distant date. The report does not state what progress has been made in the large settlements of private estates by public authority which have been in progress during the year in Bhagulpore, Monghyr, Purneah, and the Sonthal Pergunnahs, though they constituted the most novel and not least important of the proceedings taken by Government in connexion with agrarian matters.

7. The Lieutenant-Governor notices with satisfaction an increase in the number of schools from 4,785 to 5,293, and of pupils from 88,473 to 93,947. This extends to institutions of all classes except those entered as “middle vernacular.” It is specially observed that primary education has been a distinct advance both among boys and girls, and that candidates from the Division did well at the Entrance examination of the Calcutta University.

8. The Commissioner reports that local bodies appear to have on the whole worked fairly well during the year, though the record is not entirely satisfactory. The Lieutenant-Governor was very favourably impressed by the readiness with which the Bhagulpore District Board co-operated in the work of relieving distress.

9. The rate at which this contribution is levied was changed during the year in all districts, being lowered in two and raised in three. *Zemindary dāk.* Zemindars have recently objected to such annual alterations as making the incidence of the change uncertain, and changes should be avoided when this can be conveniently arranged. The Lieutenant-Governor would indeed be glad to meet a wish, once expressed by the head of the Postal Department, to commute this fluctuating impost for a fixed demand, settled in perpetuity, and a proposal for commutation has also been put forward on the part of the zemindars, though on pecuniary terms, which are not admissible.

10. Favourable mention is made of the Maharajah of Durbhanga, whose estates extend into Bhagulpore, of Maharajah Taruk Nath Ghose, and of Mr. Grant, in the Sontal Pergunnahs, for liberal management of their property. *Conduct of zemindars.*

11. The thanks of the Lieutenant-Governor are given to Mr. Stevens for efficient management of the division during the greater portion of the year. His successor, Mr. Quinn, has also given indications of administrative ability. The report bears witness to the many excellent qualities of the late Mr. Coxhead, whose premature death Sir Steuart Bayley has had to deplore since the close of the year. Mr. Waco's excellent work in connexion with the scarcity in his district attracted the special notice of the Lieutenant-Governor, and Mr. W. C. Macpherson is stated to have thrown himself with great effect into the task of improving the administration of his district. Among junior members of the Civil Service, Mr. Luson is noticed for the thoroughness with which he dealt with important business connected with Wards' estates, Mr. Monahan and Mr. Stratfield for general efficiency. Several Deputy Collectors have been favourably mentioned, among whom may be noted Baboo Soorjo Coomar Sen. *Conduct of Public officers.*

Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE GOVERNMENT
CINCHONA PLANTATION AND CINCHONA FACTORY
IN BENGAL FOR THE YEAR 1889-90.

FINANCIAL DEPARTMENT—MISCELLANEOUS.

Dated Calcutta, the 7th September 1890.

RESOLUTION.

READ—

The Annual Report of the Government Cinchona Plantation and Cinchona Factory in Bengal for the year 1889-90.

At the close of the year the plantation consisted of 4,682,401 trees of various ages and of a nursery stock containing 264,000 seedlings. The crop collected amounted to 304,705 pounds against 373,100 pounds in 1888-89. It was composed of 140,310 pounds of red or *succirubra* bark, 131,055 of Ledger's *calisaya*, 5,310 of *calisaya verde* and *morada*, and 28,030 of hybrid bark.

2. The outturn of the factory, which is regulated by the demand, was 1,833 pounds of sulphate of quinine and 6,578 pounds of febrifuge. The entire quantity of the quinine and a greater portion of the febrifuge were manufactured by the new fusel oil process which has now entirely taken the place of the old acid and alkali method of manufacture. The quinine is of excellent appearance, and in purity compares favourably with most of the brands of European

manufacture. The issues from the factory rose from 7,489 pounds in 1888-89 to 7,680 pounds in 1889-90, as will be seen from the following table :—

Total	...	7,680	1	7,489	4

3. The revenue derived from the sale of sulphate of quinine, cinchona and crystalline febrifuge, cinchona bark and other products of the plantation amounted to Rs. 1,13,693-12-6 in 1889-90, against Rs. 1,29,160-3 in the previous year, as shown below—

		1889-90.			1888-89.

The net profit on the working of the cinchona estate amounted to Rs. 18,967-9-10 in 1889-90 against Rs. 27,844 in 1888-89, and is not unsatisfactory when the depressed condition of the cinchona industry is taken into consideration. It is understood that the exportation from Ceylon has at last begun to fall off, and in this case quinine will probably soon rise in price, and the demand for cinchona febrifuge will also increase.

4. Dr. King gives a favourable report of the good work done by the subordinate officers of the plantation and factory, and the Lieutenant-Governor is glad to again acknowledge the efficient services of Dr. King and of Mr. Gammie in their administration of the Department.

ORDER.—Ordered that a copy of this Resolution and of the Report referred to be forwarded to the Government of India in the Home Department, to the Political (Medical) Department of this Government, to the Superintendent of the Government Cinchona Plantation, to the Government of Madras, and to the Inspector-General of Civil Hospitals, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Secretary to the Govt. of Bengal.

ANNUAL REPORT ON THE GOVERNMENT CINCHONA PLANTATION AND FACTORY IN BENGAL FOR THE YEAR 1889-90.

No. 860, dated Royal Botanic Garden, Seebore, near Calcutta, the 14th July 1890.

From—BRIGADE-SURGEON GEORGE KING, M.B., Superintendent, Royal Botanic Garden, Calcutta, and Cinchona Cultivation in Bengal, and Officiating Government Quinologist,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit herewith the annual report of the Cinchona Plantations and Factory for the year 1889-90.

Twenty-eighth Annual Report of the Government Cinchona Plantation and Factory in British Sikkim for the year 1889-90, by BRIGADE-SURGEON G. KING, M.B., LL.D., F.R.S., C.I.E., Superintendent of the Royal Botanic Garden, Calcutta, and of Cinchona Cultivation in Bengal, and Officiating Government Quinologist.

1. The weather during the year presented no unusual features. The plantation suffered neither from excessive rain nor from drought, nor was any great mischief done by hail or landslips; and the growth of the plants both in the nurseries and in the open was on the whole favourable.

2. *Changes in the Plantation.*—The total number of trees uprooted for their bark during the year, or which died from natural causes, was 373,690. Of this total, 270,000 were red barks, the rest being either yellow barks or hybrids. Many of the red barks were small stunted trees which yielded very little bark. On the other hand, 245,860 new trees—exclusively yellow barks and hybrids—were planted. The renewals were thus less numerous than the losses, a circumstance which is due to the enormous destruction of nursery stock by the violent hailstorm which passed over the plantation in March 1889, and which was alluded to in my last annual report. A reference to the table which forms Appendix C of this report shows that at the end of the year under review the plantation consisted of 4,682,401 trees of various ages, and of a nursery stock amounting to 264,000 seedlings. Of the trees in the open, there are now only 1,612,000 red barks, and amongst the nursery stock there are none of this sort, the intention being gradually to convert the plantation into one exclusively of quinine-yielding species.

3. *The year's crop.*—The crop collected during the year amounted to 304,705 pounds. This total is composed of 140,310 pounds of red or succirubra bark, 131,055 of Ledger's calisaya, 5,310 of calisaya verde and morada, and 28,030 of hybrid bark. The proportion contributed by the plantations is as follows: the old plantation (Rungbee and Mungpoo) yielded 222,025 pounds, Sittong 50,180 pounds, and the young plantation at Rungjung in the Bhootan Hills 32,500 pounds. With the exception of 310 pounds sold and issued on indents to jails, the whole crop was as usual made over to the factory.

4. *Expenditure on the plantation for the year.*—The total budget allotment for the plantation was originally Rs. 85,795; but as the year advanced it was found necessary to apply for a transfer of Rs. 10,000 from the plantation to the factory budget. On the grant, thus reduced to Rs. 75,795, there was a saving of Rs. 6,598-6, the net expenditure for the year having amounted to only Rs. 69,196-10. The details of the expenditure are as follows:—

	Rs.	A.	P.
European establishment (including all salaries except that of Dr. King, Superintendent of the Botanic Garden, Calcutta), cooly labour and office establishment	62,363	8	8
Keep of animals for plantations	900	0	0
Contingencies, &c., including service postage stamps	4,635	5	0
Travelling allowance	458	12	0
Stores from England	839	0	4
Total	69,196	10	0

Against this expenditure there is to be put the crop of 304,705 pounds of dry bark, the net cost of each pound of which was therefore 3 annas 7-602 pies.

5. *Factory.*—The original budget allotment for the factory was Rs. 32,515, which sum was subsequently increased by a transfer from the plantation budget to Rs. 42,515. The expenditure, however, exceeded this amount by Rs. 571-13. A large part of the factory expenditure was on machinery for working the new

fusel oil process, and this ought really to be debited to capital. But the factory has no capital account, all charges connected with it having hitherto been debited to current working expenses. And I have not thought it necessary on the present occasion to deviate from this practice, especially as such heavy expenditure on plant is not likely to be necessary for some time. To the cash expenditure of Rs. 43,088-13 there has to be added the cost of the bark used and of stores received from England. These items are as follows:—

	Rs.	A.	P.
Factory expenditure on chemicals, oil, labour and machinery	38,845	6	11
Stores from England	4,241	6	1
Cost of bark used, 137,898 pounds of crop of 1888-89 at 3 annas 1·333 pies per pound ...	26,813	4	3
100,022 pounds of crop of 1889-90 at 3 annas 7·602 pies per pound	22,714	5	9
Total	92,614	7	0

The products manufactured for this sum consisted of 1,833½ pounds of sulphate of quinine at a net cost of Rs. 11-14-3·026 per pound, and of 6,578 pounds of febrifuge at a net cost of Rs. 10-12-3·026 per pound. In short the quinine cost Rs. 11½ and the febrifuge Rs. 10¾ per pound.

6. *The fusel oil process of manufacture.*—The whole of the quinine and the greater part of the febrifuge were manufactured by the new fusel oil process; and, as the arrangements for working this process were quite completed during the year, the old acid and alkali method of manufacture has now been definitively abandoned. An additional year's experience of the fusel oil process confirms my previously expressed opinion of its complete success. The quinine turned out by it is of excellent appearance and great purity, in the latter respect comparing favourably with most of the brands of the drug of European manufacture.

7. *Sales of febrifuge and quinine during the year.*—The total issues for the year were 6,393½ pounds of febrifuge, 1,252 pounds of quinine, and 34 pounds of crystalline febrifuge. These were distributed as follows:—

Details of the distribution of Cinchona Febrifuge, Crystalline Febrifuge, and Sulphate of Quinine during the financial year 1889-90.

Total	7,680	1

This is better by 191 pounds than the issues of the previous year, which amounted to only 7,489½ pounds.

8. *Stock account.*—The bark in stock at the end of the year amounted to 426,275 pounds. Part of this bark (221,892 pounds) is of the crop of 1888-89, which cost 3 annas 1·333 pies per pound, and the remainder (204,383 pounds) is of the crop of 1889-90, which cost 3 annas 7·602 pies per pound. To save trouble in future calculations, I have taken the whole at its average cost, viz.

3 annas 4·338 pies per pound. The manufactured products have been taken at their actual cost, and the chemicals and other stores rather below their estimated value. As compared with that of 1888-89, the stock of last year stands thus:—

Stock on 31st March 1889.			Stock on 31st March 1890.		
	Rs.	A. P.		Rs.	A. P.
Chemicals and stores ...	10,000	0 0	Chemicals and stores ...	3,000	0 0

Increase in value ...	17,557	4 4			
Total ...	1,28,256	15 0	Total ...	1,28,256	15 0

There has thus been a considerable increase in the value of the stock. In other words the off-take of our manufacture has not kept pace with our production, nor has it increased in proportion to the reduction in the price of febrifuge from Rs. 16-8 to Rs. 14 and of quinine from Rs. 20 to Rs. 17 per pound. Although this result is to be regretted, it is not to be wondered at, since the price of all cinchona products in the open market still continues very low, and quinine is obtainable in the bazars at an unprecedentedly cheap rate, much of it, however, being of inferior quality.

9. *Financial result of the year's working.*—The figures already given afford the means of forming a balance sheet showing the exact financial result of the year's working. This is as follows:—

DR.			BALANCE SHEET.		CR.		
	Rs.	A. P.		Rs.	A. P.

				5	0 0		
Total ...	2,41,950	11 6	Total ...	2,41,950	11 6		

This shows a balance of profit of Rs. 18,967-9-10, which, in the present depressed condition of the cinchona industry generally, may, I trust, be accepted as satisfactory. This profit, as will be observed, is composed largely of increase in the amount of the stock of quinine, febrifuge, and bark in hand at the end of the year, as compared with the value of the stock at its commencement. It would have been more satisfactory had the cash realizations been greater, but in the present depressed condition of the industry it is a matter for congratulation when a cinchona estate is worked without actual loss. As was explained in last year's annual report, the extraordinary fall in the price of quinine during the past few years has been due to excessive exportation of cinchona bark from Ceylon. Statistics, however, show that this exportation is at last beginning to fall off. Before very long it is therefore probable that quinine will rise in price and that the demand for cinchona febrifuge will again increase. It is of course only from the narrow point of view of a cinchona grower that an increase in the price of so useful a medicine can be considered as desirable. From the point of view of Government, it would be a misfortune, since it would increase to the people the price of the best medicine for fever.

10. The crop of bark for the current year will as usual be taken with reference to the requirements of the factory.

11. The sum of Rs. 2,377-9 received for grazing and land rent was paid into the Darjeeling cutchery, no credit being taken for it in the above accounts.

12. The fuel plantation was thinned for the first time this year, and a large quantity of poles, more or less useful for building as well as for fuel, was taken out. The growth of this plantation continues to be most satisfactory.

13. Mr. J. A. Gammie, the Deputy Superintendent of the plantation and factory, was absent on privilege leave for three months; but during the rest of the year he was in executive charge at Mungpoo. His services require no recommendation from me. Mr. R. Pantling, the senior assistant, went on furlough towards the end of the year, and Mr. G. Gammie was appointed to officiate for him. Messrs. Pantling, Parkes, G. Gammie and Hartless have all worked well; as also have the head writer, Baboo Gopal Chandra Datta, and the second clerk, Baboo Davendra Nath Basu.

The results of the year under review, as compared with the previous year, show a decrease of Rs. 2,33,974 in receipts and an increase of Rs. 34,750 in charges. The decrease in the revenue from import duty is attributed to smaller clearances of duty-paying salt, while the manufacture of excise salt in Orissa has not recovered from the change of system under which the administration has been transferred from the Government of Bengal to that of Madras. On the other hand, it is to be remembered that large quantities of Ganjam salt, on which the duty is paid in Madras, are now consumed in Orissa. The increase in the receipts from "Rent of warehouses" is due to increased bonding operations, induced partly by the larger steamer traffic and partly by the reduction of the rate of rent from Rs. 5 to Rs. 3 per 1,000 maunds. The rent was reduced in April 1887, and although in the first instance it was followed by a reduction in receipts, the result in the long run has fully justified the change of policy then introduced. A further help to bonding operations will be afforded by the erection of pontoons in front of the Golahs, and the construction of a shunting line connecting them with the Howrah terminus, recently sanctioned by Government. The increase in charges is due principally to the purchase of Mr. Kilby's patent scales for weighing salt and to larger refunds of customs duty.

2. The total quantity of salt in stock at the commencement of the year was 20,46,288 maunds, comprising 18,99,649 maunds of imported salt and 1,46,639 maunds of excise salt. During the year 1,00,72,857 maunds were imported and 70,293 maunds were manufactured, against 1,04,80,285 and 2,44,512 maunds in the previous year. The falling off in imports was occasioned by smaller importations of Liverpool salt, due to the large stocks in bond, the raising of the price by the Salt Syndicate, and the growing practice of importing salt by the

Suez Canal steamers. There can be no doubt that the action of the Cheshire Salt Syndicate has acted very prejudicially to the Liverpool trade, the exports from the United Kingdom having decreased from 83 lakhs of maunds to 70 lakhs, while there has been a corresponding increase in the trade from Hamburg, amounting to 4,44,000 maunds, from the Arabian and Persian Gulfs amounting to 2,70,000 maunds, and from Aden amounting to 4,44,000 maunds. The large increase in steamer traffic is also a point deserving special consideration. Three years ago the whole of the salt imported came in sailing vessels, but during the past year 27 steamers brought 10,51,557 maunds. Mr. Armstrong, the Collector of Customs, observes that the tendency of this change in the trade is to limit the quantities imported to actual requirements.

3. The decrease in the clearances of salt from shipboard, amounting to 10,24,796 maunds in Calcutta and 1,06,748 maunds in Chittagong, has been counterbalanced by larger clearances from bond, which amounted to 32,64,318 maunds, against 23,85,541 maunds in 1888-89. The consumption in saliferous districts, other than Orissa, showed a decrease of 33,880 maunds as compared with the previous year. The decrease chiefly occurred in Midnapore, and to a lesser extent in the 24-Pergunnahs, and is attributed to the prevailing scarcity. The proportion of seizures to unsuccessful searches (1,476 to 363) was not so good as last year, but the number of seizures shows a very large increase. In the two districts of Midnapore and Backergunge the number of unsuccessful searches exceeded that of seizures. This result is far from satisfactory, and the Lieutenant-Governor is glad to see that it has attracted the careful attention of the Board. The Board have rightly understood that the orders of Government, conveyed in last year's Resolution, that "the police, instead of hunting for trivial cases of illicit manufacture, should rather direct their attention to cases of illicit manufacture for sale," were not at all intended to be read as a permission to make salt for home consumption. Any manufacture of salt without a license duly obtained is illegal. But the policy of Government in regard to salt has always been a liberal one. While, on the one hand, there can be little doubt that the salt revenue is continually defrauded by persons who carry on illicit manufacture with comparative impunity, and it is essential that the police should not relax their exertions to put a stop to systematic manufacture with a view to sale, it must be remembered that the poorer country folk have from time immemorial been in the habit of manufacturing salt, the materials of which lie at their very doors, for their own use, and that the rigorous prosecution of the law in prevention of this practice may very easily create suffering and distress among them, in comparison with which the loss of revenue incurred is but a trifling matter. The question is one of acknowledged difficulty, and much must depend on the discretion and capacity of individual officers in dealing with the penal provisions of the law.

4. The despatches of salt into the interior by the different water routes and railways, as shown in the following table, show a decrease of 2,99,263 maunds:—

YEAR.	Via Balli Khali.	Via Sankrail.	Via Gewankhally.	Via Kidderpore.	Via Ballaghatta.	Total carried by water.	By the East Indian Railway.	By the Eastern Bengal and Calcutta and South-Eastern Railway or via Chitpore.	Via Rutherford's Ghat.	Total carried by rail.	GRAND TOTAL.

There was some discussion during the past year regarding the abolition or modification of the present rowannah system, but it has eventually been decided that no alteration in it is at present necessary.

5. The proposal to extend the Indian Salt Act to the whole of the Province, to which reference was made in last year's Resolution, has been abandoned; but the Act has been extended to the town of Calcutta, as well as the area included in a radius of two miles from its limits, and the control of the saltpetre refineries within this locality has been entrusted to the Commissioner of Northern Indian Salt Revenue.

6. Mr. Kilby's scales for the weighment of salt have now entirely superseded the old scales in the port of Calcutta, and the proposal to introduce them in the Chittagong port has recently been sanctioned by Government. The Lieutenant-Governor is glad again to observe that Mr. Kilby, the Superintendent of the Sulkea Salt Golahs, has continued to discharge his duties in a very satisfactory manner.

Secretary to the Government of Bengal.

**APPOINTMENT OF A COMMITTEE TO CONSIDER THE QUESTION
OF THE FOUNDATION AND FUTURE MANAGEMENT OF
A NEW LEPER ASYLUM FOR CALCUTTA.**

MEDICAL.

Dated the 16th September 1890.

READ—

Bengal Government Resolution, dated the 29th July 1890, regarding the foundation and future management of a new Leper Asylum for Calcutta.

Letter from the President of the District Charitable Society, No. 402, dated the 5th August 1890.

Letter from the Joint Honorary Secretaries to the Prince Albert Victor Permanent Memorial Fund, dated the 12th August 1890.

Letter from the Chairman of the Corporation of Calcutta, No. 3902, dated the 1st September 1890.

In the Resolution cited in the preamble the outline of a scheme for providing Calcutta with a new, enlarged and improved Leper Asylum was indicated, and it was proposed that the whole question should be considered by a Committee consisting of the President and two members of the District Charitable Society, the Chairman and two members of the Corporation of Calcutta, Mr. W. J. Simmons on the part of the Public Health Society, Calcutta, a representative of the Prince Albert Victor Permanent Memorial Fund, and two medical officers to be selected by Government. It was added that the Lieutenant-Governor might appoint additional members should it be found necessary to do so. The Resolution was duly communicated to the Corporation and other bodies named therein, and they were asked to nominate their representatives for appointment to the Committee. Their replies have now been received, and the Lieutenant-Governor is pleased to sanction the formation of a Committee composed of the following gentlemen:—

President :

1. The Hon'ble Justice H. T. Prinsep, President of the District Charitable Society.

Members :

2. Mr. J. Lambert, C.I.E.
3. Mr. H. Lee, C.S., Chairman of the Corporation of Calcutta.
4. Mr. W. J. Simmons, Representative of the Public Health Society, Calcutta.
5. Nawab Abdul Lutef Bahadur, C.I.E., a representative of the District Charitable Society.
6. Babu Issur Chunder Mitter, a representative of the District Charitable Society.
7. Babu Surendra Nath Banerji, a representative of the Corporation of Calcutta.
8. Mr. W. M. Osmond, a representative of the Corporation of Calcutta.
9. Babu Amrita Nath Mitter, Representative of the Subscribers to the Permanent Memorial Fund.
10. Surgeon-Major W. H. Gregg, Sanitary Commissioner for Bengal.
11. Dr. W. J. Simpson, Health Officer for the Town of Calcutta.

Secretary :

Mr. Patrick McGuire, Secretary, District Charitable Society.

The Committee are requested to take into consideration the suggestions contained in the concluding paragraph of the Government Resolution of the 29th July last, and to favour the Lieutenant-Governor with their views in connection with the establishment and management of the proposed institution.

ORDER.—Ordered that a copy of this Resolution be communicated to each of the members of the Committee.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. C. STEVENS,

Offg. Chief Secretary to the Govt of Bengal

	25 Chittagong Hill Tracts. ...		Report not received.
Patna Divn.	Hill Tipperah „ 12, '90	1·92	Weather—hot. Jute commenced to be cut. <i>Amun</i> and <i>jum</i> crops doing well. No change in prices.
	26 Patna „ 13, '90	0·16	Weather—very hot and sultry. Transplantation of paddy finished all over the district excepting in some places in the Behar sub-division. Reaping of <i>bhadoi</i> crops going on; outturn estimated on an average at 3 annas.
	Barh ...	Nil	Castor seed and <i>kulthi</i> are being sown. Prices of food-grains almost stationary.
	Behar ...	1·10	Weather—hot and fair. <i>Bhadoi</i> harvest now over; outturn two annas only. Rain urgently wanted for paddy. Prices of food-grains rising daily.
	Dinapore ...	Nil	Weather—very hot. Sky clear. Rain now wanted for paddy, especially in Sasseram and Bhabuah. Prices rising.
	27 Gya „ 13, '90	Nil	Weather—hot and occasionally close. Harvesting of <i>bhadoi</i> in progress. Retransplanting of rice going on in places inundated, where possible. Crops elsewhere doing well. Prices remain stationary.
	28 Shahabad „ 13, '90	1·49	Weather—extremely hot. Only one shower during the week. <i>Bhadoi</i> being reaped; an average outturn of 6 annas for the whole district may be expected. The last floods from the Bagmati have done no serious damage to the rice crops in the Sitamarhi subdivision. Prospects of these crops are good everywhere, except in very low-lying localities.
	Buxar ...	Nil	Weather—very hot and oppressive. In Sewan and Gopalgunge a little <i>bhadoi</i> is being harvested. Preparation of lands for <i>rubbi</i> beginning. Prices about stationary.
	Bhabuah ...	Nil	Weather—fine, but excessively hot. Harvesting of <i>bhadoi</i> rice and <i>makai</i> in progress; average outturn estimated at 5 annas. <i>Aghani</i> rice in good condition. With rain within the next fortnight or three weeks, a 16-anna crop is hoped for.
	Sasseram ...	Nil	Weather—very hot and sultry. Standing crops doing well; but rain urgently wanted for winter rice.
Bhagulpore Divn.	29 Durbhunga „ 13, '90	Nil	Weather—hot with strong sun. Break in the rains favourable to <i>bhadoi</i> harvest, which is now nearly over, and if timely rain falls later on, prospects of winter rice will be assured. Average outturn of <i>bhadoi</i> for the whole district estimated at 10 annas. A 16-anna winter rice crop may be fairly expected. Floods subsiding.
	30 Mozufferpur „ 13, '90	0·22	Weather—fine and sunny. Ten inches of rain fell at Purneah on night of 9th, but it was local. Prospects of crops continue favourable. <i>Bhadoi</i> harvest nearly completed.
	Hajipur ...	Nil	Weather—hot and bright with occasional showers. Winter rice thriving well. Jute is still being cut. <i>Kalai</i> sowings going on. Rivers have gone down. Price of common rice continues unchanged.
	Sitamarhi ...	0·08	Weather—hot and oppressive with local thunderstorms on the last two days. Heavy rain at the Sudder and at Rajmehal, which has greatly benefited the rice crop. More rain is urgently required in other parts, and some damage to up-land rice has already been caused by the break in the rains and the hot sun. <i>Janera</i> harvest estimated at 10 annas in Jamtara.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last 10 years. The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE
12TH OF SEPTEMBER 1890.**

THE break in the monsoon current, which was an important feature of the meteorology of the previous week, has continued during the greater part of the present one, especially in the western districts, where only very scattered light showers have been received. In consequence temperature has been everywhere largely above the normal in all districts except North Bengal and part of East Bengal. The other important features are (1) the existence of low pressure over the Bay which has caused indraught at most of the coast stations, notably so at those in Orissa; (2) slightly deficient pressure, and very light irregular wind circulation at inland stations.

The depression over the Bay at first covered the whole of the northern half, but was very diffused, and without intensification slowly drifted in a westerly direction. On Saturday, the first day of the week, the area within which pressure was under 29.65 inches included this part of the Bay and the whole of Bengal. On the following day the depression had left the east of the Bay and the eastern and northern districts of Bengal behind, and by Monday the 8th, only the western districts of Bengal were within the area, but over the Bay the distribution was unchanged. After the passage of this trough of low pressure over Bengal, the variable winds with a westerly tendency were replaced by southerly or south-easterly directions, and rainfall became more general in East and North Bengal. Meanwhile in Orissa northerly winds blew with considerable steadiness, but as the differences of pressure were very slight, velocity was generally below the average. After the 8th pressure rose slowly, and the depression, though still showing off the coast of the Circars, was of very little importance and gradually filling up. From the 9th till the end of the month the ordinary wind circulation prevailed, southerly or south-westerly winds in Lower Bengal, and easterly in the northern districts. The sky was generally clear, and high temperature prevailed, while at times local heavy showers of rain fell.

Pressure—On the 6th was more than a tenth of an inch below the normal in Burmah and Arakan, and between a tenth and a twentieth below over the whole of the Bay and Bengal, with the exception of Orissa, Chutia Nagpur, and the western half of South-West Bengal. As the depression drifted westwards, pressure rose slowly at the eastern stations, but changed very slightly on the west coast of the Bay, where there was a rise of a few thousandths of an inch on the 7th, and a rise or fall of similar amount on the 8th. The general very slow rise continued on the 9th, and the distribution was then practically normal in Bengal and the northern half of the Bay, after which very small oscillations obtained till the end of the week, and the difference from the normal was generally under two hundredths of an inch. Thus from being considerably below the normal the general tendency has been upwards, and the distribution at the end of the week was almost normal. The means for the week are below the normal by amounts ranging up to .04 inch.

Temperature—Owing to the clear skies and absence of rain, has been excessive throughout the week, mean excess for the large divisions being 3.9° in South Behar, 3.6 in Chutia Nagpur, 3° in South-West Bengal, 2.7° in North Behar, 2.1 in Orissa, 1.9° in East Bengal, and 1.1° in North Bengal. The hottest days in Lower Bengal were between the 6th and 8th, and in Behar about the 9th or 10th; while the lowest night temperatures were generally recorded on the 6th in Orissa, South-West Bengal, and South Behar, on the 7th in East Bengal, and on the 10th or 11th in the other districts. Maximum temperature rarely exceeded 91° in North and East Bengal and Chutia Nagpur, but in Behar and South-West Bengal it was as high as 97°. Changes were not important, being of the usual oscillatory character and somewhat irregular owing to the local rainfall.

Rainfall—Has been deficient in all districts, defect being 1.98 in South-West Bengal, 1.89 in Chutia Nagpur, 1.78 in East Bengal, 1.74 in South Behar, 1.58 in Orissa, and 1.27 inches in North Behar; while in North Bengal it is only .3 inch. The total mean falls in South-West Bengal, Chutia Nagpur, and South Behar is half an inch or less, in Orissa 1 inch, in North Behar and East Bengal between one and one and-a-half inches, and in North Bengal nearly three inches. Scattered showers fell in Orissa, East Behar, and North Bengal throughout the week, but in the last two districts falls became much more general after the trough of low pressure drifted westward in the early part of the week, and on Wednesday the 10th general heavy rain fell in these districts and in Purneah; the heaviest reports being 10 inches at Purneah, 7 inches at Siliguri, more than 4 inches at Matari and Kaliagunge in the Purneah district, and more than 3 inches at Gajol in the Maldah district, Churamon in Dinagepore, Julpigoree, and Bhagatpore. After the 10th rainfall was again lighter and more scattered, very few reports being over one inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 12th of September 1890 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

Quarterly review of births and deaths registered in twenty-seven of the principal towns of Bengal for the Quarter ending 30th June 1890.

BIRTHS.

THE births registered in twenty-seven of the principal towns of Bengal during the three months ending with June 1890 were 4,014, and correspond to an annual rate of 15·12 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 3·68 lower than the mean rate of the corresponding quarters of the past five years (1885—89), and is also lower than the rate of the corresponding period of any of the past five years with which comparison is instituted, *vide* the figures below—

The births registered in each of the twenty-seven principal towns during the second quarters of 1890, 1889, and the average of the five years 1885—89, correspond to the following rates per 1,000 of the population of those towns:—

The birth rate in India is supposed to be 40 per mille. Judged by this standard it will be seen that in all the towns mentioned births are very inaccurately registered. The highest rate attained during the quarter under report was in the town of Rampore Beaulah where it was 28·28 only. Birth registration appears to be particularly bad in the towns of Jessore, Chupra and Patna where the ratios are all less than 10 per 1,000 of the population.

DEATHS.

The deaths registered in the twenty-seven principal towns of Bengal during the quarter ending with June 1890 were 6,765, and correspond to an annual rate of 25·48 per 1,000 of the aggregate population of those towns. This rate is 2·44 higher than the mean rate of the corresponding period of the past five years 1885—89, and is also higher than the recorded mortality of the corresponding quarter of any of the past five years except 1885, *vide* the figures below—

Dacca	23·04	19·48	20·28	Total	25·48	22·52	23·04

It will be seen that the highest mortality during the second quarter of 1890 occurred in the town of Poori (101·32) and the lowest in Krishnagar (9·28). The total mortality of the twenty-seven principal towns in 1890 is higher than the total rates of the two past periods with which it is compared, and shows that on the whole registration is improving. The death-rates returned from Howrah, Bali, Krishnagar, Ranaghat, Santipore, Jessore, Narainganj, Chittagong and Chupra are I fear inaccurate. The Municipal Commissioners of those towns should again enquire into the matter and take steps to improve registration if the result of their enquiry shows that it is defective as I believe it is. The very high rate of mortality in the town of Poori during the quarter under review is due to an epidemic of cholera which prevailed in that town.

The total mortality during the quarter under review from the several registered death causes is compared in the following table with the mortality from those causes in the corresponding quarters of 1889 and the average of the five years 1885—89 :—

			RATIO PER MILE DURING THE—		
			Quarter ending 30th June 1890.	Quarter ending 30th June 1889.	Quarterly average of quarter ending 30th June 1885—89.

The above statement, compared with the figures of both the past periods, shows a noticeable increase in the mortality in the 2nd quarter of 1890 under the head Fever.

MEMORANDUM.

Monthly review of deaths registered in forty-five districts of Bengal for the month of June 1890.

THE deaths registered in forty-five districts in Bengal during the month of June 1890 were 114,999, and correspond to an annual rate of 20·88 per 1,000 of the aggregate population of those districts, which is 65,859,534. This rate is 2·28 higher than the mean rate of the corresponding months of the past five years 1885—89, and is also higher than the rate of the corresponding period of any of the past five years, *vide* the figures below—

	June 1885.	June 1886.	June 1887.	June 1888.	June 1889.	Monthly average of five years, 1885—89.	June 1890.
Ratio of deaths per 1,000 of the population per annum	18·00	15·96	20·40	19·08	19·08	18·60	20·88

The following table shows the highest proportions of deaths registered during the month of June 1890, compared with the corresponding month of 1889 :—

Districts.				Districts.			
Ratio per mille during—				Ratio per mille during—			
June 1890. June 1889.				June 1890. June 1889.			
Darjiling	46·32	45·48		Noakhali	29·52	26·76	
Chumparun	42·48	14·40		Monghyr	29·28	19·92	
Patna	36·48	18·96		Durbhanga	26·52	13·08	
Julpaiguri	33·00	30·21		Dinajpore	24·96	19·44	

The figures of June 1890 show a distinct advance towards accuracy in death registration in the districts mentioned.

The total mortality during the month under review from the several registered death causes is compared in the following table with the mortality from those causes in the corresponding month of 1889 and the average of the five years 1885—89 :—

				Ratio per mille during—		
				June 1890.	June 1889.	Monthly average of five years 1885—89.
Cholera	...	...	...	2·40	4·32	2·52
Small-pox	...	...	...	·24	·12	·12
Fever	...	...	...	14·40	11·40	12·12
Bowel-complaints	...	...	...	·48	·60	·72
Injury	...	...	...	·60	·60	·60
Other causes	...	...	...	2·52	2·40	1·20

It will be seen that the death-rate of June 1890 under the head Fever was considerably higher than in the two past periods, with which it is compared. Under the head Cholera, there was a sensible reduction in mortality during June 1890 as compared with June 1889. The mortality from the unspecified diseases returned under the head Other Causes in June 1890 is higher than the average rate of the corresponding month of the past five years 1885—89.

The highest annual death-rates from Cholera and Fever occurred in the following districts :—

Cholera.				Fever.			
Ratio per mille.				Ratio per mille.			
Chumparun	...	...	21·24	Darjiling	...	...	33·60
Patna	...	...	10·92	Julpaiguri	...	...	30·72
Monghyr	...	...	7·92	Noakhali	...	...	26·64
Durbhanga	...	...	7·56	Dinajpore	...	...	22·68
Poori	...	...	5·88	Bungpore	...	...	20·04

Bhagulpore	...	...	3·36				
Cuttack	...	...	3·12				
Gya	...	...	2·64				
Shahabad	...	...	2·40				

From Small-pox high mortality occurred again only in the district of Chumparun—mortality 2·64 per 1,000 of population.

SUPPLEMENT TO THE CALCUTTA GAZETTE, SEPTEMBER 17, 1890. 1899

The mortality of the month under review, according to *Sex, Class and Age*, was distributed as follows:—

<i>According to Sex.</i>		<i>According to Class.</i>		<i>According to Age.</i>

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 10th September 1890.

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 30th August 1890.

BIRTHS.

THE births registered during the week ending with Saturday, the 30th August 1890, in twenty-seven principal towns of Bengal correspond to an annual rate of 19· per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 3·7 lower than the average rate of the corresponding week of the past five years, and is also lower than the rate of the corresponding week of any of the past five years with which comparison is instituted—*vide* the figures below—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years, 1885-89.	1890.

SUPPLEMENT TO THE CALCUTTA GAZETTE, SEPTEMBER 17, 1890. 1903

It will be seen that last week the highest mortality occurred in the town of Gya (58·7) and the lowest in Arrah (8·4).

Measured by last week's mortality, the highest annual death-rates from the following registered death causes were as follows:—

<i>Cholera.</i>			<i>Fever.</i>			<i>Other causes.</i>		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Gya	...	14·3	Gya	...	26·0	Gya	...	17·0

Chupra	...	6·0				Hughli and Chin-surah	...	11·5
Dacca	...	3·2						
Patna City	...	2·3						

The total mortality from the several registered death-causes in the twenty-seven principal towns amounted to 3· from cholera, against 3·7 per 1,000 in the preceding week; 1 from small-pox, against the same ratio; 9·4 from fever, against 10·5; 4·3 from bowel-complaints, against 2·7; 3 from injury, against 4; and 5·8 from other causes, against 7·4 in the preceding week.

The mortality of last week according to *Sex*, *Class*, and *Age* was as follows:—

LIBERALITY OF SYED MAHOMED MEHDI HASSAIN KHAN, *ALIAS* BADSHAH NAWAB, OF PATNA CITY.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 17th September, 1890.

RESOLUTION.

READ—

A letter from the Commissioner of Patna, No. 499G, dated the 13th August last, and one from the Director of Public Instruction, No. 5038, dated the 5th September, 1890, regarding the offer of Syed Mahomed Mehdi Hassain Khan, *alias* Badshah Nawab, of Patna City, to found a scholarship and two prizes.

Syed Mahomed Mehdi Hassain Khan, *alias* Badshah Nawab, of Patna City, has offered to make over Government securities, of the nominal value of Rs. 2,000, to found a scholarship of Rs. 5 a month and two prizes of Rs. 10 each for award to Behari Mahomedan students of the Anglo-Arabic School in Patna in commemoration of the late visit of the Lieutenant-Governor to that school. The Lieutenant-Governor is pleased to accept the offer and tenders his thanks to the donor for his liberality. In accordance with the donor's wishes the scholarship and prizes will be designated "Badshah Nawab Bayley Scholarship and Prize," and the Collector of Patna is appointed to be the administrator of the fund.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Patna for information and for communication to the donor, and to the Director of Public Instruction for information.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

T. NOLAN,

Secretary to the Government of Bengal.

**REVISED PROSPECTUS OF THE FOREST SERVICE BRANCH OF
COOPER'S HILL COLLEGE.**

Circular No. 12-F.

*Extract from the Proceedings of the Government of India, in the Revenue and Agricultural
Department (Forests)—dated Simla, the 26th August, 1890.*

Read the following Despatch from Her Majesty's Secretary of State for India, forwarding, with remarks, the revised "Prospectus of the Forest Service Branch of the Royal Indian Engineering College, Cooper's Hill":—

No. 40 (Revenue), dated London, 12th June, 1890.

From—Her Majesty's Secretary of State for India,

To—The Governor-General of India in Council.

I FORWARD 25 copies of the revised Prospectus of the Indian Forest Service Examination, which has been issued here. The alteration in the schedule of subjects for the entrance examination will take effect at and from the examination of 1891. But the extension of the Cooper's Hill Forest Course from two to three years will take effect with the candidates entering Cooper's Hill College in the autumn of 1890. Therefore the probationers of this year will not reach India until 1893, and no recruits will be sent out for the Forest Service in 1892.

2. With reference to article 16 of the Prospectus, I shall, when sending you lists of the recruits starting in 1893 and in subsequent years, inform your Government which of the probationers have been found qualified for the higher initial salary of Rs. 350 a month.

The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.)

1. The Royal Indian Engineering College is primarily maintained, under the orders of the Secretary of State for India in Council, for the education of candidates for the service of Government in the India Public Works, Telegraph, and Forest Departments; but it is open, to the extent of the accommodation available, to all persons desirous of following the course of study pursued in it.

INDIA FOREST DEPARTMENT APPOINTMENTS.

2. The examination usually takes place in June of each year.

3. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India: the figures as regards each particular year will be advertised from time to time. *In 1891 there will be 12 appointments offered for competition.*

4. Candidates for the Indian Forest Department are selected under the following arrangements:—

(a) An applicant must be a natural-born British subject, and must be above 17 and under 20 years of age on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India he will forfeit his appointment.

(b) An applicant must send† to the Revenue Department of the India Office, on or before the 1st day of May of the year in which he proposes to compete—

(1) His name and parentage, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.

(2) A statement of the places of education at which he may have been since he was nine years old, accompanied by testimonials of good conduct during the last four years.

(c) Applicants will have to appear before a Medical Board‡ at the India Office, particular stress being laid upon good vision and hearing. A physical test will also be imposed, so as to ensure the selection of persons of active habits and powers of endurance.

(d) The applicants who have successfully passed the medical examination and the physical test will be required to undergo an examination before the Civil Service Commissioners§ in the following subjects (Classes I to III), marks being assigned as follows:—

CLASS I.—OBLIGATORY SUBJECTS.

	Marks.	
1. Mathematics (lower), viz., Algebra up to and including the Binomial Theorem; the theory and the use of Logarithms; Euclid, Books I to IV and VI; Plane Trigonometry up to and including the solution of Triangles; and Mensuration	2,500	In each of these subjects a candidate must obtain not less than one-third of full marks in order to qualify.
2. English composition	1,000	
3. German (400 for colloquial)	2,000	

* Sir D. Brandis is not on the Staff of the College.

† There is no form of application; the documents specified in clauses (1) and (2) should be enclosed in a covering letter addressed to the Secretary, Revenue Department, India Office, London.

‡ With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Forest Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the following points:—

1. A weak constitution.

2. Defective vision.

3. Impaired hearing.

4. The existence of any congenital defect.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

On the subject of the standard of eyesight required for the Indian Services, a pamphlet has been published, under the authority of the Secretary of State in Council, by Messrs. Churchill and Sons, 11, New Burlington Street.

§ A fee of 4*l.* is required, which can be paid by means of a stamp of that amount. Instructions on this point will be issued to candidates the day before the examination.

CLASS II.—OPTIONAL SUBJECTS.

	Marks.	
4. Mathematics (higher), including Analytical Geometry, Conic Sections, Differential Calculus, Statics, and Dynamics	2,000	A candidate may take any two, but not more than two, of the optional subjects.
5. French (400 for colloquial)	2,000	
6. Latin	2,000	
7. Greek	2,000	
8. English History. There will be set : one general paper ; one paper limited to a fixed period, of which due notice will be given	2,000	
9. Botany, viz., the elementary parts of vegetable morphology, histology, and physiology, and the principles of a natural system of classification as illustrated by the more important British natural orders. Candidates will be required to describe plants in technical language. Questions will not be set on vegetable palaeontology or on the geographical distribution of plants	2,000	
10. Chemistry, viz., the elements of Inorganic Chemistry	2,000	
11. Physics : elementary properties of Electricity, Magnetism, Heat, Light, and Sound	2,000	
12. Physical Geography and Geology, chiefly economic ; including the recognition of the more familiar minerals and rocks, and their properties and uses	2,000	

CLASS III.—ADDITIONAL SUBJECTS.

13. Freehand Drawing	500	Either or both of these subjects may be taken in addition to the obligatory and the two optional subjects.
14. Geometrical Drawing	300	

(e) From the competitors who attain the abovementioned minima of marks in obligatory subjects and satisfy the requisite conditions in other respects, the Secretary of State will select candidates, in order of merit, as probationers to enter the college, where they will be further trained for the Forest Service of India.

(f) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons who may satisfy the authorities of the College that he or they are properly qualified to become probationers for the Forest Service.

5. The course of study for candidates for the India Forest Service extends over about 34 months divided into nine terms. During the first eight terms the candidates will prosecute their studies at the College, and during the remaining term they will be instructed, under suitable supervision, in such British or Continental forests as may be selected for the purpose. Excursions will also be made for purposes of instruction, both during term time and during part of the vacations. The cost of all such tours or excursions is borne by the Secretary of State (see paragraph 9).

6. Each annual session begins in September, and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer.

7. A charge of 61% for each of the first eight terms and 60% for the ninth term is made for each student : the amount must be paid terminally in advance to the Bank of England. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence until his fee has been paid.

8. A deposit of 5% is required to be paid by each student on admission to the College as caution money, to cover charges incurred by him for damage to books, instruments, &c., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion 66%.

9. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging with washing and ordinary medical attendance while in residence at the College. When students are on tour and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the maximum expenditure on such account being 10s. per diem), (2) travelling expenses, and (3) fees to local Forest Officers, &c.

Students are required to provide their own class books and drawing instruments. Drawing paper, drawing boards, and surveying instruments are provided by the College.

10. The prescribed course of study at present comprises the following subjects :—

I.—Engineering.

1. Geometrical Drawing.
2. Freehand Drawing.

3. Surveying.
4. Road-construction.

II.—*Natural Science.*

1. Inorganic Chemistry.	4. Geology and Mineralogy.
2. Chemistry of Soils and Vegetation.	5. Entomology.
3. Physics.	6. Botany.

III.—*Forestry, theoretical and practical.*

IV.—*Miscellaneous.*

1. German.	3. Accounts.
2. Elements of Law.	4. Drill and gymnastics

11. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required: failing which, or in the event of serious misconduct, he will be liable to be removed from the College.

12. During the course of study the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination. Each student may also, at the discretion of the Secretary of State for India, be required to appear before the Medical Board at the expiration of the first year of residence at the College, and should the result be unsatisfactory he cannot claim to be allowed to complete the course.

13. The subjects enumerated in paragraph 10 are grouped in certain main branches of study, and a fixed minimum of qualification is required in each branch, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in Forestry.

14. Candidates who have obtained this diploma, and are found to be of sound constitution and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which points will rest with the Secretary of State for India), will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed, before leaving the College, to choose the provinces in which they desire to be first employed, according to the standing in which they pass out of the College. But this choice can only be exercised according to the available vacancies in the different provinces, and on the understanding that officers are at all times liable to be transferred from one province to another at the pressure of the Government of India.

15. Within a month of his nomination as Assistant Conservator, each nominee must sign Articles of Agreement describing the terms and conditions of his appointment. He must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. The pay of an Assistant Conservator of Forests will commence from the date of arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs 350 a month; those who fall short of the required standard, though they may have obtained the College diploma in Forestry, will begin on Rs. 250 a month; and this difference of salary will continue until the first Departmental Examination is passed in India. It will rest with the President of the College, in consultation with the Principal Professor of Forestry, to decide which probationers, if any, have failed to qualify for the higher initial salary.

17. Promotion, leave, and pension will be regulated by the rules of the service for the time being. Further information on this point can be obtained from the Revenue Secretary, India Office, London.

18. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

General Rules.

19. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

20. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the control of the Secretary of State for India.

21. The students are distributed in divisions, under personal charge of one of the Professors or Instructors selected by the President; such tutor being responsible for exercising the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

22. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied by the College, but each student is required to provide his own towels and bed linen. Meals are

taken in hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

23. A chapel is attached to the College, which the students residing in the College are expected to attend, unless specially exempted.

24. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

25. Students are required to wear academical dress, under such regulations as may be prescribed from time to time.

Students not nominated for the Indian Forest Service, but desirous of obtaining a Diploma in Forestry from Cooper's Hill College.

26. Students not nominated for the Indian Forest Service may be received into the College, as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service, as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On attaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College Diploma in Forestry, or special certificates showing in what subjects they have followed the instruction and with what result.

27. Candidates who desire to be admitted under paragraph 26 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

28. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College, about the last week in June of the year for admission. The object of the examination will be to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces a University diploma, or other similar certificate granted by a recognized examining body.

29. Candidates admitted to the College under paragraph 26, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the Indian Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

IRRIGATION OPERATIONS FOR RABI SEASON, 1889-90.

No. 1367I.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Irrigation.

Dated Calcutta, the 17th September 1890.

RESOLUTION.

READ—

Statements Nos. I, II, and III, showing irrigation operations of Canals in Bengal during the *rabi* season 1889-90.

OBSERVATIONS.—The area irrigated during the *rabi* season of 1889-90 was 60,553 acres against 106,883 acres in 1888-89 and 59,130 acres in 1887-88. Thus there was a decrease of 43·3 per cent. on the previous year, in which, however, the *rabi* season was one of unusual activity.

2. The decrease occurred almost entirely on the Sone and Sarun Canals. On the Midnapore Canal, where the supply of water during the *rabi* season cannot be guaranteed, 440 acres of boro rice were irrigated against 3,369 acres in the previous year. In Orissa there was an increase from 2,973 to 6,059 acres.

3. The details of increase or decrease in the area irrigated by each canal are given in the following comparative statement:—

CANAL.		RABI SEASON.		More.	Less.
		1888-89.	1889-90.

	Nowgong ...	1.16	
	13 Rangpur „ 20, '90	2.50	Weather—sultry with frequent showers. Transplantation of <i>amun</i> rice nearly over. Rain now wanted for the young plants. Jute has been greatly over done, and in many places will hardly repay the cutting. Prices still very high.
	Kurigram ...	1.39	
	Nilphamari ...	0.75	
	Gaibanda ...	0.84	
	14 Bogra „ 20, '90	1.70	Weather—days hot and sultry. <i>Amun</i> is still being transplanted. Three-fourths of the <i>aus</i> paddy have been reaped, and the reaping of jute is not finished yet. <i>Amun</i> and sugarcane look promising. Common rice selling at 19 seers per rupee.
	Sherpur ...	0.43	
	15 Pubna „ 20, '90	1.19	Weather—cool and cloudy. Jute harvest not yet finished; outturn estimated at about 14 annas. Prospect of <i>amun</i> not good in the Sudder subdivision, but good in the Serajunge subdivision. Prices stationary.
	16 Darjeeling „ 20, '90	1.85	
	Siliguri ...	3.05	Weather—fair and fine. Transplantation of winter rice in Terai nearly finished. Jute, <i>bhadoi</i> , <i>bhutta</i> , and <i>chota marua</i> still being harvested. <i>Haimanti</i> rice and <i>bara marua</i> progressing favourably.
	17 Julpigoree „ 20, '90	3.47	
			Weather—hot and cloudy with rain at intervals. About 14 annas of <i>haimanti</i> paddy transplanted. Average outturn of <i>aus</i> and jute reported, to be 12 and 11 annas respectively. Prices continue stationary.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—concluded.			
<i>Eastern Districts.</i>			
Dacca Divn.	18 Dacca Sept. 20, '90	1.08	Weather—hot and cloudy at intervals. Rain heavier in Manickgunge than in other subdivisions. <i>Aus</i> and jute being harvested. These crops have been partially damaged by high flood. <i>Amun</i> doing well. Rivers falling. Fodder available, but not in abundance. Common rice sold at from 13 to 15 seers per rupee during the week.
	19 Furreedpur „ 20, '90	2.49	Weather—seasonable. Flood-water fast receding. Prospect of <i>amun</i> crop fair. Jute steeping in progress. Price of rice stationary.
	20 Backergunge „ „		Report not received.
CHITTAGONG DIVN.	21 Mymensingh Sept. 20, '90	4.18	Weather—hot and cloudy with occasional rain. Jute still being harvested. Transplantation of <i>amun</i> nearly finished. Standing crops flourishing. Rivers going down. Price of common rice 13½ seers per rupee.
	22 Chittagong „ 20, '90	3.84	Weather—seasonable. About 1½ annas of <i>aus</i> cut, and <i>amun</i> transplanted over 12 annas of land. Prospects fairly good. Prices steady.
	23 Noakholly „ 20, '90	1.67	Weather—warm and sultry. Reaping of <i>aus</i> completed. Transplantation of <i>amun</i> still going on. Betel-nuts maturing.
	24 Tipperah „ „		Report not received.
	25 Chittagong Hill Tracts. Sept. 18, '90	2.05	Weather—extremely hot and rainy, except on the 16th and 17th. Gathering of <i>jum</i> paddy continues. Plough-paddy progressing. Common rice being sold at 12 seers 15 chittacks per rupee.
BEHAR.	Hill Tipperah „ 19, '90	3.17	Weather—hot with occasional showers. Cutting of jute going on. Prospects of <i>amun</i> and <i>jum</i> crops generally fair. Prices stationary.
	26 Patna „ 20, '90	1.19	Weather—very hot. Transplantation of paddy over and prospects favourable. <i>Bhadai</i> crops are being harvested. <i>Jowar</i> and <i>rahar</i> look flourishing. Prices of food-grains stationary.
PATNA DIVN.	Barh „ „	1.40	
	Behar „ „	1.05	
	Dinapore „ „	3.20	
	27 Gya „ 20, '90	0.53	Weather—sometimes cloudy and sometimes clear. Paddy and <i>kurthi</i> are the only crops standing in the fields. Prospect of paddy is doubtful for want of rain. Ploughing of <i>rubbi</i> fields commenced. Prices of food-grains have risen to some extent.
	28 Shahabad „ 20, '90	0.98	Weather—cooler than last week, but still hot. Rain in Sasseram and Bhabuah has saved the paddy crop for the present. More rain will be wanted. The rains do not appear to have finished, and prospects are good. Price of wheat rising, but that of paddy falling, in Sasseram; elsewhere prices unchanged.
	Buxar „ „	0.90	
	Bhabuah „ „	2.35	
	Sasseram „ „	1.02	
	29 Durbhanga „ 20, '90	0.29	Weather—hot and cloudy. <i>Bhadai</i> harvest still in progress. Prospects of rice in parts not affected by floods continue favourable. A few showers of rain would, however, greatly benefit the crop. Lands being prepared for <i>rubbi</i> cultivation. Prices remain stationary.
	Somastipur „ „	1.18	
BHAGPUR DIVN.	Madhubani „ „	0.70	
	30 Mozufferpur „ 20, '90	0.62	<i>Makai</i> and other <i>bhadai</i> crops are being harvested; outturn will be better than was expected during the heavy rains of July and August. Rice is doing well, specially in the Sitamarhi subdivision, and with a further rainfall of three or four inches before the middle of October, a good outturn will be obtained.
	Hajipur „ „	2.88	
	Sitamarhi „ „	0.58	
	31 Sarun „ 20, '90	0.52	Weather—hot and bright, occasionally cloudy. Paddy, where it survives, has been benefited by the rain. More rain wanted. Preparation of lands for <i>rubbi</i> commenced.
	Sewan „ „	5.88	
	Gopalgunge „ „	2.07	
	32 Chumpan „ 20, '90	1.88	Weather—hot and sultry. Rainfall of the week has considerably benefited the winter rice on high lands; prospects very good. <i>Bhadai</i> crops are being cut and housed. Prices remain almost stationary.
	Bettiah „ „	3.41	
	33 Monghyr „ 20, '90	1.50	Weather—hot and sultry; cloudy at times. Recent rain has benefited the winter rice, but more rain is wanted. Lands are being ploughed for <i>rubbi</i> sowing.
	Beguserai „ „	0.79	
	Jamui „ „	0.88	
	34 Bhagulpore „ 20, '90	0.71	Weather—hot and sunny. Prospects of winter rice continue good, but more rain is wanted. <i>Bhadai</i> harvest nearly over.
	Banka „ „	0.88	
	Mudhepura „ „	Nil	
	Soopool „ „	0.43	
	35 Purneah „ 20, '90	0.34	Weather—cloudy and close. Prospects continue favourable. <i>Bhadai</i> harvest completed with an average outturn of 13 annas. Transplantation of winter rice finished. Prices stationary.
	Kishengunge „ „	0.93	
	Arrareah „ „	1.27	
	36 Maldah „ 20, '90	0.52	Days hot and bright, but mornings somewhat cool. Jute still being cut. Winter rice thriving well. <i>Kalai</i> sowings going on. Lands being prepared for <i>rubbi</i> crops. Common rice selling at from 12 to 17½ seers per rupee.
	Chanchal „ „	0.78	
	Shibgunge „ „	0.25	
	Gajole „ „	1.53	
	37 Sonthal Pergas. „ 20, '90	0.98	Weather—generally cloudy and hot. Rain has done much good to the rice crop, and another fair shower will secure an outturn of 16 annas. <i>Janera</i> is nearly a failure; about 4 annas will be the outturn of this crop. All the minor crops are doing well.
	Deoghur „ „	0.52	
	Godda „ „	0.46	
	Janitara „ „	0.56

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
ORISSA.			
ORISSA DIVN.	38 Cuttack Sept. 20, '90	5.29	Weather—seasonable. Harvesting of early <i>beali</i> going on. <i>Laghu</i> as well as <i>guru sarad</i> doing fairly well except in Jajpur, where, as previously reported, paddy crop generally, and <i>beali</i> and early <i>sarad</i> specially, have suffered from want of sufficient rain. Outturn of early <i>sarad</i> estimated at 7 annas. Two heavy showers have, however, fallen during the week, and prospects are likely to improve.
	39 Poonree „ 18, '90	1.24	Weather—seasonable. Weeding of <i>sarad</i> crop going on. <i>Beali</i> and <i>mandia</i>
	Khoorda ...	0.59	are being harvested. Miscellaneous crops doing well Insects called <i>haldi-goondi</i> and <i>rangi</i> have attacked the <i>sarad</i> crop in the Khoorda subdivision.
	Banpur ...	5.67	Price of common rice stationary.
	40 Balasore „ 20, '90	3.36	Weather—seasonable. Rain has come in time to save the winter rice crop on lowlands, but that on high lands is already dead. Estimated crop in Bhuddruck 10 annas, and in the Sudder subdivision at least 12 annas.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
CHOTA NAGPORE DIVN.	41 Hazaribagh Sept. 20, '90	1.93	Weather—rather unsettled. Rain on 16th and 17th has greatly benefited the rice crop. <i>Bhadoi</i> crops are being harvested; outturn generally very poor. Oilseeds and pulses are being sown.
	42 Lohardugga „ 20, '90	3.35	Weather—seasonable. Rainfall during the week has done much good to the
	Palamow (up to 15th Sept.)	0.70	winter rice crop. Some more rain is wanted for this crop. Early <i>gora</i> rice is being harvested here and there. No material change in price.
	43 Singbhoon Sept. 20, '90	2.51	Weather—cloudy with storm every day. The recent rain has done immense good to the winter rice crop; more rain is, however, wanted in order to place it out of danger. The upland (<i>bera</i>) paddy has suffered to the extent of about 4 annas. Price of rice varies from 13 seers per rupee at Monarpur to 20 seers at Kalkapur; in Chyebassa town it is selling at 16 seers per rupee.
	44 Manbhoom „ 20, '90	2.04	Weather—very favourable. Good rain all over the district, and the rice crop
	Govindpore ...	2.25	has been materially benefited. Prospects generally fair.

LCUTTA, the 23rd September 1890.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE
19TH OF SEPTEMBER 1890.**

The only noteworthy peculiarities in the weather during the past week are:—

(1) The shallow depression which gradually formed over Orissa and the adjacent part of the Bay, and which, after being displaced southwards by the rapid rise of pressure in Northern India about the middle of the week, intensified slightly in the Circars, but practically filled up on the 19th, the last day of the week.

(2) The scattered rain fall in all districts except Orissa, with heavier and more general showers on Monday and Tuesday in the eastern districts and on Tuesday and Wednesday in the west of the province, the total falls being deficient except in Orissa.

As the shallow depression remained to the south-west of Bengal throughout the week, the wind circulation has been almost unchanged except in the south-west corner where, from northerly, directions changed to east about the middle of the week when the depression was displaced to the south. On the last two days the tendency was for southerly winds to set in at the inland stations, as pressure was falling in the west of Behar and was very little higher than in the Circars, where the low-pressure area was filling up. On Sunday the 14th, pressure was changing very slightly, and was only two or three hundredths of an inch below the normal. South-easterly winds were blowing at all stations, and the air was heavily charged with moisture in the east, as very heavy rain was falling at Akyab, Chittagong, and Silchar. On the 15th lowest pressure was at False Point, and the depression seemed to be moving towards the north, while rainfall had become fairly heavy and general in East and North Bengal. Gradients were steeper over the Bay and about normal in Bengal, but on the following day a rapid rise of pressure commenced in the north, continuing on the 17th, whereby gradients became steeper in Bengal, and strongly easterly winds, but of only average velocity, blew over the whole province. After that lowest pressure was at Vizagapatam, and increased on the 17th from 29.619 to 29.717 inches and winds from being north or west in Orissa changed to east as at the other Bengal stations. Rainfall had almost ceased at eastern stations on the 17th, but was fairly general in South-West Bengal, Orissa, and Behar, amounts however being generally small. The depression intensified somewhat on the 18th, the centre being still close to Vizagapatam, moderately heavy rain falling in the Circars; but in Bengal its influence was ceasing and wind directions were becoming southerly. On Friday southerly winds were blowing at nearly all stations, and though showers continued in Orissa, South-West Bengal, and part of North Bengal, in the other districts rainfall was practically absent.

Pressure—On an average has been slightly above the normal, and changes have been small except in the middle of the week when the rapid rise occurred, commencing in the northern districts. On the 16th the rise was about .12 inch in North Bengal, and slightly under a tenth in East Bengal, but diminished to less than .05 inch in Chutia Nagpur. On the 17th the most rapid rise was in Chutia Nagpur, where it exceeded .17 inch, and from there it gradually diminished to .07 inch in North and East Bengal and .12 inch in Orissa. The wave appears to have entered the province from the north-east and crossed towards the south-west. Mean pressure is below the normal at Gopaldpur, False Point and the stations in the west of Behar, and above elsewhere by small amounts ranging up to .04 inch.

Temperature—On an average has been below the normal in Orissa, practically normal in Chutia Nagpur and South-West Bengal, and above the normal in the other districts, by .7° in Behar, .8° in East Bengal, and 1° in North Bengal.

Rainfall—Has been above the normal in Orissa by nearly one inch, and below in all the other districts by less than half an inch, except North Bengal, where defect is 1.66 inches, the average fall being only .92 inch. The average fall in Orissa is 3.66 inches, in East Bengal 1.96 inches, in Chutia Nagpur 1.58 inches, and in the other districts, except North Bengal, between 1 and 1.5 inches. As stated above, almost general rain has been received in Orissa and the adjacent parts of South-West Bengal throughout the week, and that general rainfall elsewhere was chiefly on Monday and Tuesday in the eastern districts, and on Tuesday and Wednesday elsewhere. The falls at the various stations are very irregular, but in many cases do not exceed 1 inch, and only in a few 2 inches.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

N.B.—In the weekly report from 31st August to 6th September 1890 read "89.7" for "89" as the maximum of the 1st, and also read "1.017" for "1.017" as the vapour tension of the 2nd September 1890.

MEMORANDUM.

Weekly review of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 6th September 1890.

BIRTHS.

The births registered during the week ending with Saturday, the 6th September 1890, in twenty-seven principal towns of Bengal correspond to an annual rate of 26·3 per 1,000 of the aggregate population of those towns, which is 1,061,574. This rate is 3·5 higher than the average rate of the corresponding week of the past five years, and is also higher than the rate of the corresponding week of any of the past five years except 1885—*vide* the figures below—

	1885.	1886.	1887.	1888.	1889.	Weekly average of five years 1885-89.	1890.
